This includes incidences of illness, double-entry in a class, and emergencies.

2023-2024 Premier Breeder Guidelines

A. Points from each Bred and Owned division at each NJSA show are accumulated throughout the year.

- I. Champion=100
- II. Reserve=95
- III. 3rd=90
- IV. 4th=85
- V. 5th=80
- VI. 6th=75
- VII. 7th=70
- VIII. 8th=65
- IX. 9th=60
- X. 10th=55

- i. Only the first and second highest placing Bred and Owned gilts in each class are eligible to return for the Bred and Owned championship to accumulate points.
- ii. If breed has divisions, Bred and Owned division candidates will be selected at the conclusion of each division rather than at the end of the breed show. Five animals will be selected from each division to be eligible for the top ten overall.
- iii. Placings from the Bred and Owned division at a maximum of three of the following six shows will count for the 2023-2024 Premier Breeder program: 2023 National Junior Summer Spectacular, 2023 Southwest Regional, 2023 Eastern Regional, 2023 Western Regional, 2024 Winter National, and 2024 The Exposition Junior National will be counted

- iv. The top five exhibitors in each breed with the most accumulated will be contacted after the conclusion of The Exposition Junior National by the NSR Events and Education Manager to schedule an interview that will take place at the 2023 National Junior Summer Spectacular with a panel of judges.
- B. If there is a tie in accumulated points, NJSA can have more than 5 exhibitors apply. In this case, all exhibitors that fill out an application will not be guaranteed to remain in the top 5 overall.
- C. Final scores will be calculated with 50% of the final score being the point total from the Bred and Owned division at shows and 50% of the final score being from their application. In the event of a tie, ties will be broken based on the exhibitors application score. The exhibitor with the higher application score will win the tie.
- D. A Premier Breeder for each breed will be awarded at the virtual awards ceremony following the National Junior Show, receiving a belt buckle and \$1,000 in NSR sale buyer credits.
- E. The biography of each Premier Breeder will be published in the Fall issue of the *Seedstock Edge* magazine with the official National Junior Show results.

Overall Premier Breeder

- A. The Overall Premier Breeder will receive a one-year lease donated by Exiss Trailers with the option to buy along with a banner.
 - i. The Overall Premier Breeder will be selected based off of the TOTAL points accumulated from all Bred and Owned projects. The top five exhibitors with the most total points after the conclusion of The National Junior Show will be contacted by the Events and Education Manager to fill out an overall premier breeder application. Those Top 5 exhibitors with the most total points will then fill out a separate application about their entire Bred and Owned program and what breeds they have exhibited.
- B. Final scores will be calculated the exact same as they are for the Premier Breeder for each breed, with 50% of the final score being the total points accumulated from all Bred and Owned divisions at shows and 50% of the final score being from the Overall Premier Breeder application.
- C. *Please note: if an exhibitor is in the Top 5 in their respective breed and in the Top 5 Overall in terms of points, they will be filling out TWO separate applications. The application competing for the Premier Breeder title of their respective breed will be based upon that specific Bred and Owned project, whereas the Overall Premier Breeder will be interviewed based on all Bred and Owned Projects.

PQA Plus Certification

Regulations:

1. PQA Plus or Youth for the Quality Care of Animals (YQCA) certification is required for all junior exhibitors participating in an NJSA event. Youth ages eight to 21 are required to be YQCA certified, while youth seven and younger must have their parents certified in PQA Plus. Current PQA Plus or YQCA certificates or cards must be presented at check-in for each NJSA show in order to participate. You can become certified by attending the YQCA or Adult PQA Plus training sessions that will be available at most NJSA shows, or by contacting the National Pork Board to locate a PQA Plus trainer near you. For more detailed PQA Plus information please call the National Pork Board at (515)-223-2600. For detailed information about YQCA visit yqcaprogram.org.

2. We do not have access to these numbers so you **MUST** provide us with proof that you are certified or else you will have to become YQCA/PQA certified if you want to show.

Check-in Process at Shows/Events:

Upon checking-in at the show, each exhibitor will be asked to bring a copy of their YQCA certification, PQA Plus card or state certificate. If you are not certified, your name and address will be placed on a list and submitted to the trainer at the show. All youth ages 8 and up who are not certified are required to attend the training session. All parents or guardians, who are not certified, of exhibitors younger than 8 years of age are required to attend the adult session. Roll call will be taken at the training sessions; it is your responsibility to be at the session on-time, stay for the entire session, and make sure your name and address is on our training list.

If you have any questions regarding PQA Plus training, the program, or the process for which to become certified, please do not hesitate to contact the National Pork Board at (800) 456-7675.

 - ii. Breeder must provide a list of sires (no more than 10) with DNA samples on NSR blotter/hair cards (or list sires already DNA banked with the NSR) to re-test.
 - iii. The re-testing procedure must be completed all at once and must be submitted within 30 days of the initial parentage result.
 - iv. This process follows the same steps detailed in sections I and II.
- b. If breeder opts to not attempt to rectify the parentage, then a final 'Fail' result is determined.

4. NSR Actions and Reporting of Final Results (after the above sections have been fully completed):

- a. Initial Pass Result:

IAFE (International Association of Fairs and Expositions) Code of Show Ring Ethics

Exhibitors of animals at livestock shows shall at all times conduct themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the “IAFE Code of Show Ring Ethics,” fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and

provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show

Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Grievance Policy

Complaints against NJSA members/exhibitors must be made in writing and signed by the person registering the complaint (Complainant), and accompanied by a deposit of \$200, which shall be forfeited if the Events and Education Manager or the Youth Advisory Board determines the complaint unjustified. If the complaint is determined to be justified, the deposit shall be returned to the Complainant. If any member or other person is charged, in writing, with misrepresentation as to the pedigree of any animal bred or owned by him, or with willful misrepresentation concerning any other fact concerning any animal owned or bred by him, or with any conduct detrimental to the NSR or NJSA, the Events and Education Manager will investigate the situation, and if he/she feels there is a valid basis for the charge, he/she shall have a complaint prepared setting forth the alleged improper acts of said member/exhibitor of the NJSA or other person. A copy of this complaint, together with notice of the time and place of hearing on said charges, shall be served upon the member/exhibitor of the NJSA or other person by certified or registered United States Mail, return receipt request.

If a grievance is filed and proven after the show concludes, no one will be moved into the unfiled position that was revoked from the former winner.

A grievance must be filled within 7 days after an event.
