

# NISA PUREBRED INFLUENCED *Crossbred Classes*

Starting in 2024, all NJSA shows will have Purebred Influenced Crossbred classes. This includes the Winter National, The Exposition and National Junior Summer Spectacular, in addition to Southwest, Eastern, and Western Regionals.

Additionally, these animals will be eligible to show and potentially sell in the crossbred portion of the open show at NSR events.

## **REQUIREMENTS:**

1. A documented parent (sire or dam) that is Berkshire, Duroc, Hampshire, Landrace, or Yorkshire. If utilizing a purebred sow, a DNA sample must be submitted to verify parentage.  
The use of a purebred sire would meet the same requirements as members recording a purebred litter, therefore, purebred sires should already have a DNA sample on file.
2. **The animal(s) must be recorded in the NSR Crosscheck Verification Program and documentation provided at the time of check-in. To download the Cross Check registration form, click the link: <https://nationalswine.com/pedigree/docs/CrossCheckDNA-RegistryForm.pdf>**
3. Animals that may not meet purebred breed eligibility requirements but still maintain a pedigree would be eligible to show in this division (ie. short underlines, off-belted Hampshires, etc.)  
Top 5 animals will be required to pass parentage testing to receive premiums.
