Mike Paul | mike@nationalswine.com
 NSR Chief Executive Officer

2016 Saddle and Sirloin Club inductee

Dr. Maynard G. Hogberg is professor and chair emeritus of the Department of Animal Science at Iowa State University. A native of southwest Iowa, he received his B.S., M.S. and Ph.D. from Iowa State University. In 1976, he joined the faculty in animal husbandry at Michigan State University with a teaching, research and extension appointment in swine nutrition and management. Dr. Hogberg was appointed chair of Michigan State's Department of Animal Science in 1984. He led an effort that created a vision to strengthen animal agriculture in the state of Michigan, which resulted in substantial state funding for modernization of facilities and programmatic support of new faculty positions and operating funds. After serving on the faculty at Michigan State for 27 years, he was named chair of the Department of Animal Science at Iowa State University in 2003.

Dr. Maynard Hogberg is recognized internationally as a leading authority on swine management. For three decades, he was the nation's premier university leader of animal science programs and one of the most respected leaders for animal agriculture in the nation. He is widely recognized as one of the most gifted and visionary department leaders in the history of Michigan State and Iowa State, partly due to his commitment to advancing the teaching, research and extension missions of the universities and agricultural colleges, but also due to his vast knowledge on the subject matter.

Providing monumental leadership in all aspects of his career, Hogberg encouraged a high level of engagement between academia and external stakeholders. His ability to build relationships and talk knowledgeably with great insight on the priorities of animal science and addressing the needs of the state and agriculture was remarkable and critical in helping fulfill the land-grant mission for both Iowa and Michigan. Hiring outstanding faculty and staff and mentoring them to excel has been his legacy. He succeeded in creating a supportive and positive academic environment and built his departments into fundraising powerhouses, enabling them to recruit talented faculty, staff and students through increased programmatic faculty and student support.

Dr. Hogberg and his colleagues developed a vision for animal agriculture in Iowa that has become the guiding document for animal agriculture. He served as president of the American Society of Animal Science and the Federation of Animal Science Societies as well as being an active leader in many other scientific organizations throughout his career. Dr. Hogberg has been recognized for numerous awards and honors, including Distinguished Service Awards from the Pedigreed Livestock Council, the National Pork Board and the National Swine Improvement Federation. His service to numerous industry associations, state, regional and national professional societies, leadership to two universities and the many contributions to the communities where he and his family have lived make him exceptionally qualified for induction into the 2016 Saddle and Sirloin Portrait Gallery.

The text above is from Maynard Hogberg's induction into the Saddle and Sirloin Club.

This past November, Dr. Maynard Hogberg's portrait was hung in the gallery of the Saddle and Sirloin Club in Louisville, Kentucky. Leaders throughout the livestock industry attended this event to recognize the contributions this gentleman made to our industry.

As a board member of the American Yorkshire Club (AYC), Maynard provided leadership in the formation of the National Swine Registry (NSR). The AYC recognized the skills Maynard exhibited and elected him to serve on the NSR Executive Committee. During this time period, the swine industry was experiencing some of the bleakest economic times in history; however, Maynard stood out as a leader and served as Chairman of the NSR Executive Committee. As the Chairman, Maynard, was directly responsible for the development and implementation of the Long Range Strategic Plan that serves as the operating format for the NSR today.

We say thank you for the contributions to our industry by Dr. Hogberg and recognize him as the newest member of the prestigious Saddle and Sirloin Club.

Youth View

Kaley Bontrager | kaley@nationalswine.com
NSR Director of Junior Activities

NJSA updates

Change is inevitable, but fortunately the National Junior Swine Association (NJSA) has a Youth Advisory Board consisting of eight individuals who excel in their careers and are passionate about the success of the NJSA. The Youth Advisory Board and NJSA staff work together to make tough decisions, while making sure we are providing growth opportunities for our junior members and their families. With the new year beginning, I think it's important I highlight several changes the Youth Advisory Board, National Swine Registry (NSR) Executive Board and NJSA staff have worked together to make. These changes will be taking effect at NJSA shows and events this year. However, before I dive into that, I would like to describe the process the NJSA staff goes through to have these rules put into place.

The NJSA staff, along with the Youth Advisory Board Chairman, work to create an agenda that consists of issues, concerns and new ideas to be presented to the Youth Advisory Board. After working through the agenda, the Youth Advisory Board is charged with making recommendations to be presented to the NSR Executive Board. For a half day, the Youth Advisory Board and the NSR Executive Board meet to discuss these recommendations. This discussion allows the Youth Advisory Board to explain their reasoning for proposed recommendations, while allowing the NSR Executive Board to ask questions to ensure they are clear on what the changes would mean for the NJSA. After the information is presented, the NSR Executive Board votes on the recommendations to be put in place. Although not every recommendation is passed, the NJSA staff feels confident in the decisions the NSR Executive Board makes.

A big change for this year is the wording allowed on pedigrees for junior members who participate in the bred-and-owned division. The rule now states only one junior member can be listed on the bred-and-owned pedigrees, and they must be listed as both the breeder and the owner. No other family members or farm names can be listed on the pedigree in order to qualify. Although the decision to adjust the pedigree requirements for bred-and-owned animals wasn't an easy one, we feel very confident we made the right decision.

For the past few years, this group has been working on several ideas to increase membership and involvement at the NJSA Western Regional. Although this has taken some time to get set in stone, the NJSA is happy to announce we have a date and location set for the 2017 NJSA Western Regional. The show will take place in Paso Robles, California, at the Paso Robles Event Center on Nov. 30-Dec. 3, 2017. We are looking for your support and generosity to make this event great.

I think too often people assume the NSR staff makes all final decisions, when in reality we work very closely with the Youth Advisory Board and NSR Executive Board to ensure we are creating the best version of the NJSA we can. Although people don't always agree with the decisions that are made, I think we can all agree we believe in what the NJSA does for our junior members.

"Although people don't always agree with the decisions that are made, I think we can all agree we believe in what the NJSA does for our junior members."

Kaley S. Bontrager

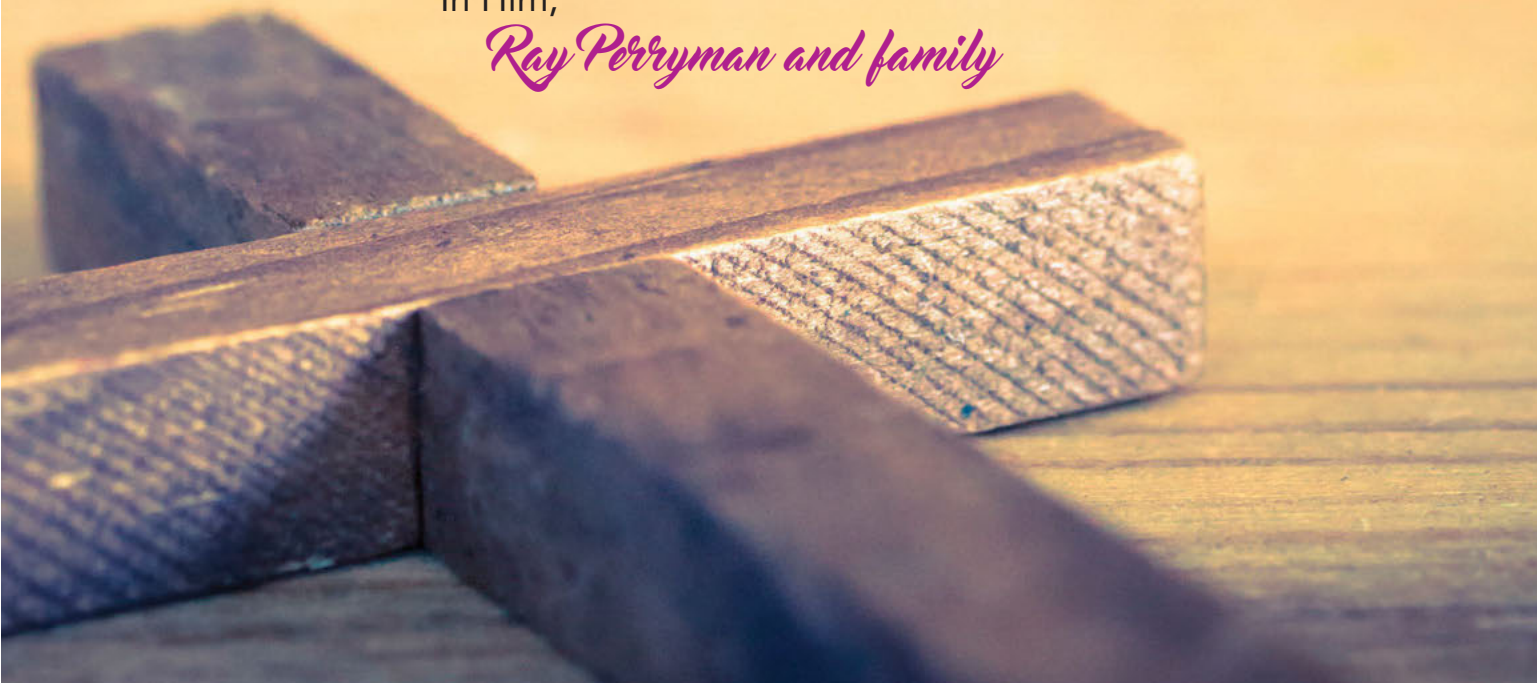

Thoughts from the Word

Hello one and all, *Seedstock EDGE* readers. What an honor it is to be asked to write to you in this great publication. I know many of you have been running through yourself buying and selling livestock these last few months. I believe, if we are not careful when we are out seeking these pieces for our programs, we can easily make mistakes in what we buy. You see, it's so important to be specific in what we are seeking. I bet we have all settled at one time or another. I don't believe God wants us to settle in our pursuit of Him. Matthew 6:33 says, "But seek first His kingdom and his righteousness and all these things will be given to you as well." It's so important we are specific in seeking God's Kingdom above seeking things. When we seek God's Kingdom, He will give us those other things! We love each of you and can't wait to see y'all down the road.

In Him,

Ray Perryman and family

Fueling Creativity

Stephen Weintraut II | steve@nationalswine.com
 NSR Director of Marketing & Communications

TO EVERY THING THERE IS A SEASON

Happy New Year everyone!

Here we are at the beginning of 2017, and like many of you, I am reflecting on 2016 and what 2017 will bring. It's kind of funny; as I am writing this, I keep thinking of a Pete Seeger song covered by the Byrds, in 1965, "Turn! Turn! Turn! (To Everything There Is a Season)," and the message the song had in 1965 and the message it has for me in 2017. As I thought of this, the song came on the radio. Coincidence? Fate? Or maybe it was just one of my favorite songs and was next in my Amazon Music playlist. Let's just go with fate because it sounds cool.

2016 was an interesting year for me, the National Swine Registry (NSR) and the country as a whole.

As for me, I became the Director of Marketing and Communications late in the summer. The *Seedstock EDGE* staff decided to update the look of the magazine for 2017, and we hired a Social Media Coordinator/Assistant Editor. This fall, my wife, Wendy, and I made the decision to put our house of 14 years up for sale, in the spring.

The NSR has been working on a new, long-range strategic plan for the future of the organization. This is a major step toward defining the future of the NSR in relation to how we serve our membership in multiple ways, such as the services we provide and how we educate current and future members. We have been working on updating the software we use to produce our pedigrees, created using the MS-DOS (Disk Operating System), which by 1995, had basically stopped being used by anyone. So, we have had to bring the 1990s technology into the 21st century. That does not come easy.

Finally, we have had the whole country embroiled in the presidential election all year. No matter which side you voted for, I believe we are all relieved it is finally over. No election in my memory has given me quite the headache this one did.

Well, enough about the past – I'm ready to think about the future, in 2017. I believe right now is an exciting time to be a part of the NSR. With what I hope comes from the long-range strategic plan, the NSR will continue to focus and enhance our relationship with our membership by offering better services and educational materials for everyone. I believe membership numbers will grow as more of these services come online.

In conclusion, I would just like to say, once again, "Thank you everyone!" for making my 2016 great, and I have a feeling 2017 will turn out even better.

TURN! TURN! TURN!
The Byrds

*To everything (turn, turn, turn)
 There is a season (turn, turn, turn)
 And a time to every purpose,
 under heaven*

*A time to be born, a time to die
 A time to plant, a time to reap
 A time to kill, a time to heal
 A time to laugh, a time to weep*

*To everything (turn, turn, turn)
 There is a season (turn, turn, turn)
 And a time to every purpose,
 under heaven*

*A time to build up, a time to
 break down
 A time to dance, a time to mourn
 A time to cast away stones, a time to
 gather stones together*

*To everything (turn, turn, turn)
 There is a season (turn, turn, turn)
 And a time to every purpose,
 under heaven*

*A time of love, a time of hate
 A time of war, a time of peace
 A time you may embrace, a time to
 refrain from embracing*

*To everything (turn, turn, turn)
 There is a season (turn, turn, turn)
 And a time to every purpose,
 under heaven*

*A time to gain, a time to lose
 A time to rend, a time to sew
 A time for love, a time for hate
 A time for peace, I swear it's not
 too late*

Songwriters: Pete Seeger

Controller

ASK *the* STAFF

COMMONLY ASKED QUESTIONS THE NSR STAFF RECEIVES AND THEIR ANSWERS

Q: Why should I become a member of the NSR?

A: Membership has its incentives.

NSR Active Senior Membership is provided per breed (Yorkshire, Duroc, Hampshire, and Landrace) and offers the following benefits for individuals 22 years of age and older:

- Record litters at member rates (1/2 non-member rates – see **TABLE 1**)
- Includes a 1 year *Seedstock EDGE* subscription per membership (\$25 value)
- Allows breeders to exhibit at NSR open shows at member rates
- Provides voting rights to elect breed board members

NJSA Junior Membership is offered to anyone 21 years of age and under and provides the following benefits:

- Record litters at member rates (1/2 non-member rates – see **TABLE 1**)
- Make all transfers at a \$5 rate (see **TABLE 1**)
- Eligible for NJSA Scholarships
- Eligible to participate in NJSA shows and youth leadership activities

NSR Active Senior Membership is a one-time, \$10 fee for Lifetime Membership, plus a \$75 maintenance fee for the first year per breed (\$85 in year 1) and then \$75 for annual dues per breed each following year of Active Senior Membership status.

NJSA Junior Membership is free to all individuals under the age of 21.

What are non-member exhibitor fees and junior participation fees?

NSR open shows give exhibitors the opportunity to show their animals and sell the animal in our sales, if selected or consigned. NJSA shows give junior members the opportunity to exhibit their animals at the junior level. Collectively, we host 19 shows and events every year across the U.S.

Any individual who is 22 or older, is not an Active Senior Member of the NSR in at least one breed and wishes to show an animal in an NSR open show will be required to pay a \$75 annual, non-member exhibitor fee prior to the show. This fee is charged annually during a calendar year. Non-member exhibitor fees expire Dec. 31, of each year.

Any individual who is 21 or younger is required to pay a \$15 junior participation fee for each NJSA show and each NSR open show entered.

NSR, together with the NJSA, takes pride in the quality of the events, venues, judges and ring help of each show. As a result, these fees are used to fund the cost of the NSR shows and supplement NJSA premiums paid to our junior members.

TABLE 1

EFFECTIVE 2017, NSR rates for pedigree services will be as follows:		
LITTER REGISTRATIONS:		
Birthdate	Member Rates	Non-Member Rates
Within 90 days	\$15	\$30
91-150 days	\$40	\$80
Over 150 days	\$75	\$150
TRANSFERS:		
Date of Sale	Transfer Rate	NJSA Jr. Member Rate
Within 60 days	\$5	\$5
Over 60 days	\$10	\$5

Membership status, as well as timely submission of litters for recording, will significantly reduce litter registration and transfer costs for all breeders.

NSR NEWS

Godwin joins NSR staff

The National Swine Registry (NSR) welcomed Cassie Godwin to the team, in November, as the Social Media Coordinator and Assistant Editor.

Cassie Godwin

Godwin is responsible for promoting the mission and activities of the NSR and National Junior Swine Association (NJSA) through online platforms. Godwin also designs ads and writes feature stories for the *Seedstock EDGE*.

She attended Texas Tech University where she received a bachelor's degree in agricultural communications and a master's degree in agricultural education. While at Texas Tech, she was a member of the livestock judging team, Block & Bridle and Agricultural Communicators of Tomorrow. Prior to her time at the NSR, Godwin interned with Texas Pork Producers, Texas Alliance for Water Conservation, Cargill and several livestock shows.

Growing up on her family's cattle ranch gave Godwin her love for agriculture. Outside of the office, she enjoys spending time with her family and friends, going to stock shows and cooking.

Picture Judging Contest

Entries for the 2017 National Picture Judging Contest are due Feb. 1, 2017. The contest is open to 4-H, FFA and collegiate teams. There is no maximum number of teams per school or club, but each team must have a different name. Each individual may only enter one time, either as an individual or on one team. Classes for the contest can be found in the December issue of the *Seedstock EDGE*,

or online at nationalswine.com. Entries can be mailed to 2639 Yeager Road, West Lafayette, IN 47906 or completed online at nationalswine.com.

BOUND ISSUES FOR SALE

Bound issues of the *Seedstock EDGE* are available for \$25. Call the NSR office at 765.463.3594 for year availability and to purchase one.

NSR fee structure updates for pedigree services

The NSR Executive Committee voted to approve the following changes to NSR fee structure for pedigree services. This will go into effect in 2017.

LITTER REGISTRATIONS:			
Birthdate	Members	Non-Members	International Litters
Within 90 days	\$15	\$30	\$20
91-150 days	\$40	\$80	
Over 150 days	\$75	\$150	
TRANSFERS:			
Date of Sale	Transfer Rate		
Within 60 days	\$5		
Over 60 days	\$10		
All Juniors regardless of date of sale	\$5		
AI CERTIFICATES:			
Type	Rate		
Domestic	\$25		
International	\$35		
SPI (F1 LITTERS):			
Per litter	\$5		
DIRECT MAIL:			
Each	\$1		

The prepay program is still in place for pedigree services. Members must pay \$15 per litter in advance (by March 1) for the total number of litters anticipated to be recorded in the calendar year. A minimum of 50 litters must be prepaid for in order to qualify for this service. If the prepay account has a balance at year's end, it is forfeited.

NEW: Hampshire-Sired Crossbred Division for 2017 World Pork Expo Junior National

A new division for crossbred barrows sired by purebred, registered Hampshire boars is being offered at the 2017 World Pork Expo Junior National. Special premiums and awards will be offered for winning exhibitors by the Hampshire Swine Registry. For more information on this program, visit nationalswine.com.

NJSA NEWS

NJSA Junior Board

The National Junior Swine Association (NJSA) is now accepting applications for the 2017-2018 NJSA Junior Board of Directors. Junior board members serve as young leaders in the industry and are provided with numerous opportunities to grow, network and learn through their two-year terms.

Applications are available on the NJSA website, nationalswine.com/NJSA. They're due on March 1.

NJSA Scholarships

The National Junior Swine Association (NJSA) offers several scholarships each year to help youth interested in the swine industry pursue a college education. Available scholarships in 2017 include:

Outstanding NJSA Member of the Year

The NJSA will award \$200 to the novice winner, \$300 to the junior winner, \$500 to the intermediate winner and \$1,000 to both senior winners. Applications must be postmarked by March 1.

Claude Robinson Scholarship

The family of Claude Robinson offers this \$1,000 scholarship to be awarded to one incoming college sophomore, junior or senior enrolled in a junior or senior college judging program. The scholarship will be awarded based on leadership activities, livestock judging experience and interest and community service. Applications must be postmarked by March 1.

Gregory D. Johnson Scholarship

The family of Gregory D. Johnson is offering a \$1,000 memorial scholarship to honor a graduate student. The applicant must be a spring college graduate with a bachelor's degree in an agricultural field or a current graduate student pursuing a master's or doctorate degree in swine genetics, swine reproduction or swine nutrition. Applications must be postmarked by March 1.

Jason Shipley Memorial Scholarship

The family of Jason Shipley is offering a memorial scholarship of \$1,000 to honor an incoming freshman, sophomore or junior in college who is enrolled in an agriculture-related field. Applicant must have a strong background in athletics and the swine industry. Applications must be postmarked by March 1.

NJSA Visionary Leader Scholarship

The NJSA will award one member of the NJSA Junior Board of Directors with \$500 in recognition of the applicant's contributions and service to the organization. Applications must be postmarked by March 1.

Juniors Helping Juniors Scholarship

This \$1,000 scholarship is funded from NJSA members donating their show premiums back to the NJSA. The applicant must be an NJSA member and an incoming college freshman, sophomore or junior enrolled in an agriculturally-related field. Applications must be postmarked by March 1.

American Yorkshire Club Scholarship

The American Yorkshire Club (AYC) developed this \$1,000 scholarship to recognize college students who have a history of showing Yorkshire swine. Applications must be postmarked by March 1.

TC Trailer Sales Scholarship

TC Trailer Sales, a utility trailer dealer in Indiana, sponsors this \$500 scholarship in support of the NJSA and its efforts to provide educational opportunities to its members. The applicant must be a high school senior planning on attending college in the fall semester. Applications must be postmarked by March 1.

The Maschhoffs Pork Production Scholarship

The Maschhoffs in Carlyle, Illinois, is offering up to five pork-production scholarships to NJSA members ages 18 to 21 years old who are or will be enrolled in an agricultural program at a recognized college or university. All winners will receive \$1,000 and must complete a four-day internship with The Maschhoffs Inc. Applications must be postmarked by May 15.

OBITUARIES

MICHAEL DALE COX

1957-2016

Michael Dale Cox, 59, of Hope, Indiana, passed away Oct. 31, at Columbus Regional Hospital.

He recently worked at Delta Faucet in Greensburg and spent many years as a farm loan officer. He was a farmer at heart.

Cox was a member of Waynesburg Christian Church. He enjoyed farming, pig showing, NASCAR and telling stories with his buddies. He was a foodie and enjoyed frying chicken and cooking for everyone. He loved spending time with his family and friends and their friends. He really enjoyed going on warm vacations with his family.

The funeral was held Nov. 3, at Norman Funeral Home, in Hope, with Pastor David Burnett officiating. Burial followed at Hope Moravian Cemetery. Memorial contributions may be given to Waynesburg Christian Church or National Swine Registry (National Junior Swine Association) 2639 Yeager Road, West Lafayette, Indiana 47906.

Born on August 30, 1957, in Greensburg, Cox was the son of Clayton and Freida Lawson Cox. He married Debra Bense on June 21, 1980, and she survives.

Other survivors include his children, Glendon (Sarah) Cox of Greensburg, and Morgan (Ryan Thayer) Cox of Hope; brother, Steve Cox of Columbus; mother-in-law, Janet Bense of Hope; sisters-in-law, Wanda (Steve) Fortner and Brenda (David) Shireman, both of Hartsville; several nieces, nephews and special friends.

Cox was preceded in death by his parents; sister-in-law, Beverly Elliott; and father-in-law, Louis Bense.

Online condolences may be sent to the Cox family at normanfuneralhome.net.

ARNO FREDERICK MOENNING

1922-2016

The funeral service for Arno Frederick Moenning was held Sept. 27, at St. John's Lutheran Church in Sargeant, Minnesota, with the Rev. Collin Duling and the Rev. Alan Broadwell co-officiating. Interment was at the St. John's Lutheran Cemetery with military honors by the Hayfield and Dodge Center

American Legions.

Moenning, 94, passed away after a long and fulfilling life on Sept. 20, at Fairview Care Center in Dodge Center, where he had resided for the last 11 years.

Moenning was born May 30, 1922, the son of Edward and Matilda (Rodert) Moenning in Madison, Nebraska. Moenning attended Green Garden Parochial School, high school in Madison, and enlisted in the Army on Aug. 28, 1942. Moenning excelled in his studies at Carlton College as a member of the 70th AAFSTD flight H pre-meteorology

unit. He later studied at Harvard University in electronics and radio and was a Corporal Weather Equipment Technician of the 74th Army Air Force Base Unit upon his honorable discharge on Feb. 27, 1946. After his time in the Army Weather Bureau, he was called to agriculture and especially animal agriculture.

He was united in marriage to Deloris Kruse on Sept. 5, 1948, at Trinity Lutheran Church in Norborne, Missouri.

Moenning was known for his Hampshire hogs that started as a 4-H project, in 1939. He and the family moved to Minnesota, in 1958, and further developed the herd through performance testing. Moenning Farms sold breeding stock to commercial and purebred producers throughout 23 states and internationally. Over the years, he received many awards for the quality of his hogs, and in 1978, he was awarded the National Swine Improvement Federation Producer of the Year. In 1982, he was inducted into the Minnesota Livestock Breeders Hall of Fame. He was instrumental in starting local and state pork producer organizations and served in many leadership roles. Moenning was vice president of the Minnesota Pork Producers and also served as a director on the National Pork Producers Council (NPPC) from 1975 to 1981. He served in other organizations, including a director of Norwest Bank, Dodge Center and committees of the Minnesota Board of Animal Health.

Moenning lived his entire life in the Missouri Synod Lutheran faith and cherished his family members, especially his grandchildren and their youth livestock activities. Moenning was appreciative of his care at Fairview Care Center, where the staff became his second family.

Moenning is survived by his wife, Deloris Moenning, of Dodge Center; sons, David Moenning, of Dodge Center, Mark (Donna) Moenning, of Hayfield, and Paul (Cathy) Moenning, of Dodge Center; six grandchildren and one great-grandchild.

He was preceded in death by his parents, three brothers and one sister.

Online condolences can be left at czaplewskifuneralhomes.com.

LARRY JAMES MAPES

1948-2016

Larry James Mapes, 68, of Plain City, Ohio, was born on May 7, 1948, in Franklin County, Ohio. He died peacefully at the Kobacker House Nov. 24, after a long illness.

Mapes graduated from Fairbanks High School, in 1966. He had a beautiful singing voice and performed with the Ohio Youth Choir. Mapes was a fieldman for the National Poland China Association. He was a purebred hog breeder for many years and spent his life working in the hog industry in several capacities.

Mapes is survived by his father, Leland Mapes; daughters, Laura (Jeff) Schmidt and Heather (Phil) Wolford; son, James Neil; stepchildren, Jason Murrah and Sherri-Ann (Tony) Burchett; grandchildren, Derek Neil, Jennifer Neil, Delaney Schmidt, Rylen Schmidt, Elias Schmidt, Owen Wolford and

Obituaries continued on next page

Jude Wolford; stepgrandchildren, Joshua (JJ) Gallant and Karlee Stambaugh; greatgrandchild, Devin Neil; siblings, Sharon (Mike) Arata, Rebecca (Earl) Birchfield, Steven (Rebecca) Mapes, Linda Mapes, Mary Beth (Brian) Rausch, John (Mona) Mapes, Pam Cook and Lisa (Jeff) Cook; and a host of nieces, nephews, relatives and friends.

He was preceded in death by his mother, Mary Latham Mapes; grandparents, Ray and Nita Mapes, Ray and Bertha Latham; and numerous relatives.

Per his request, no services were held. Donations in his honor may be made to The Ohio State University James Cancer Hospital and Solve Research Institute, 300 W. 10Th Ave., Suite 519, Columbus, OH, 43210.

MILO P. "BUCK" PANGBURN 1932-2016

Milo P. "Buck" Pangburn, 84, Northwood, Iowa, died Nov. 1, at the Lutheran Retirement Home in Northwood.

A funeral service was held Nov. 7 at the United Methodist Church with Rev. Rob Lanphere officiating. Burial was in the State Line Cemetery, rural Northwood, with full military

honors conducted by members of Our Buddies Veterans of Foreign Wars, Post 6779, Northwood.

Pangburn was born on March 19, 1932, on the family century farm in rural Northwood, the son of Milo Wesley and Marjorie (Gabriel) Pangburn. Pangburn was baptized and reaffirmed the faith of his baptism through confirmation at the Northwood Baptist Church. He attended rural country school and graduated from Northwood High School, in 1950.

He was united in marriage to Beverly Hicks of Gordonsville, Minnesota, on Nov. 7, 1954, at the United Methodist Church in Northwood. To this marriage a son, Donald Paul, was born on Dec. 30, 1955.

He was inducted into the United States Army on Sept. 9, 1953, and was attached to the 11th Armored Cavalry Division. He served his country honorably and faithfully until his honorable discharge on June 9, 1955, at Ft. Knox, Kentucky.

Pangburn continued his education by graduating from Iowa State University with a degree in animal husbandry. After his graduation from Iowa State, they came back to the family farm and began raising purebred Duroc hogs, showing them at many local fairs and the Iowa and Minnesota State Fair. He served as a director on the National Duroc Swine Board. He and his father received the 1971 Commercial Producer of the Year award.

In 1978, he began the purebred Simmental cattle herd, again showing at fairs and selling in sales. He and his son, Donnie, received the Iowa Commercial Cattleman of the year award, in 1983. He served as a director on the Iowa Cattlemen's Board. Pangburn and Beverly also received the Iowa Cattleman of the Year award, in 2005. They traveled to Montana to compete in the national title.

One award he was very proud of was the first Cattleman of the Year Award presented by the Worth County Cattlemen.

He took great pleasure in seeing a young 4-H person purchase a calf and then being successful in showing and building their own herd.

Pangburn was a member of the Northern Lights Masonic Lodge in Northwood and served as Worshipful Master. He also was a member of the Eastern Star, serving as worthy patron. He and Beverly were members of the Northwood United Methodist Church for 60 years.

Pangburn loved to visit and had many friends far and wide.

Those left to cherish his memory are his wife, Beverly Pangburn, of Northwood; his son, Donnie (Bryn) Pangburn, of Northwood; grandchildren, Grayson Pangburn, of Northwood, Paige (Kevin) McClure, of Lenexa, Kansas, Peyton Pangburn, of Northwood, and Nigel (Lindsey) Millard, and family of Orange City; his brother, Dan (Donna) Pangburn, of Phoenix, Arizona, and their family, Greg, Beth, Scott, and Debbie; his sister, Nancy (Jonathon) Appleton, of Melissa, Texas, and their family, Julia (Mark), and Dianna; his extended family, Susie Pangburn, of Des Moines, and her family, Mason and Austin; Gary Pangburn, of Northwood, and his son, Riley; Jim (Dayna) Steinman, of Northwood, and their family, Jamie and Jake; and Julie (Schultz) Guzman, of Phoenix, Arizona; aunt, Esther Gaarder, of Northwood, and her family, Tom, Linda, Lori, Aletha and Terry; his nieces; Debbie (Dave) Wallukiat, and their family, Connie and Angie, Lori (Charlie) Williams, and many other nieces and nephews; his sister-in-law, Shirley Rygmyr, and her family, Tom, Roxy and Susie; as well as a host of other extended family members and friends.

He was preceded in death by his parents, Milo and Marjorie Pangburn; his niece, Diane Pangburn; and a brother-in-law, Donne Rygmyr.

JAMES RICHARD VOLK 1932-2016

James Richard Volk died Oct. 15, at Community Pride Care Center, Battle Creek, Nebraska. He was born on Nov. 21, 1932, to John C. and Amelia (Schmidt) Volk in the Volk farmhouse south of Battle Creek. He lived there his entire life until entering Community Pride Care Center in January 2016,

following a stroke and heart attack. Volk was baptized at St. Peter Lutheran Church (Heights) in rural Battle Creek on Dec. 18, 1932, and confirmed there on April 14, 1946. Volk attended St. Peter Lutheran Elementary School and graduated from Battle Creek High School, in 1950.

Volk married Stella Mae Miller on Oct. 5, 1958, at St. John Lutheran Church in Battle Creek. He and Stella farmed and raised purebred hogs and cattle. Volk dedicated his life to the art of breeding better livestock, raising Specific Pathogen Free (SPF) Hampshire and Yorkshire hogs and Simmental cattle. Volk was a member of the Heights Mens Club, Heights Card Club, the American Yorkshire Club, Hampshire Swine Registry, Madison County 4-H and Battle Creek FFA Alumni. He served as the second president of the Nebraska Pork Producers from 1964 to 1967, and on boards of directors for the National Live Stock and Meat Board from 1967 to 1975, the American Yorkshire Club from 1983 to 1988, and Faith Regional Health Services from 1983 to 2010.

Volk attended National 4-H Club Congress, in 1953, and traveled to South America on a People to People International Ambassador trip, in 1963. Volk and Stella received the Honorary Chapter Farmer Degree from Battle Creek FFA and the Honorary State Farmer Degree from Nebraska FFA. He was recognized as a Pork All American, in 1970, received the Nebraska Pork Producers Builder Award, in 1977, Nebraska Swine Improvement Federation Achievement Award, in 1978, was the University of Nebraska Block & Bridle Club Honoree, in 1991, and was inducted into the Nebraska Hall of Agricultural Achievement, in 1992.

Volk judged many swine shows and enjoyed current events, politics and sports. He loved spending time with his grandchildren and attending their activities. He lived his faith and shared it with his family and friends. He and Stella hosted 25 Japanese Agriculture Trainees, who lived and worked on the Volk farm from 1967 to 1985.

Volk is survived by son, J.D. Volk, and fiancé, Cathy Helvie, of Battle Creek; son, Tom Volk, and spouse, Debbie, of Lincoln; daughter, Jan Frenzen, and spouse, Craig, of Fullerton; daughter, Sue Volk, and spouse, Mark, of Cave Creek, Arizona; one brother, Robert Volk, of Arlington; and sister-in-law, Josephine (Ken) Volk, of Omaha. His grandchildren are Bryan (Megan) Buckendahl, Dylan (Alisha) and Rylie Volk of Norfolk, Katie (Matt) Hothem of Sumner, Jamie (Thomas) Ksiazek of Brookings, South Dakota, Emily Frenzen of Fullerton, Mitchell Volk of Iowa City, Iowa, and Lexie and Ellie Volk of Lincoln; and great-grandchildren are Chloe and Avery Volk and Bailey and Hudson Buckendahl of Norfolk.

He was preceded in death by Stella, his spouse of 53 years; his parents; brothers, John and Ken Volk; and sisters, Helen (Willis) Grant and Betty (Don) Bierman.

Services were held Oct. 18, at St. John Lutheran Church in Battle Creek. The Rev. B.J. Fouts officiated. Burial was in the parish cemetery. In lieu of flowers, the family suggests memorials to St. John Lutheran School.

ROSS A. HIRSCHFELD

1949-2016

Ross A. Hirschfeld, age 67 of Benedict, Neb., died Sunday, December 4, 2016 in Lincoln. He was born November 30, 1949 at York, Neb., to J.D. and Verla (Cotner) Hirschfeld and was a lifetime farmer in the Benedict area. He was a member of the United Methodist Church in Benedict, the

York County Ag Society, Pork Producers, past member of the Benedict School Board, was a York County 4-H Leader, member of NSR and CPS Associations, CPS Hall of Fame Inductee, and received an honorary degree from the York FFA. A professional joke teller, he loved his family, especially spoiling his grandchildren. Ross loved making people laugh and was always there to lend a helping hand.

On November 30, 1969 he was married Patty Doremus in York. He is survived by his wife Patty of Benedict, his daughter Kimberly Hirschfeld-Cotton of York, sons Chad (Misty) Hirschfeld of Benedict and Jason (Jennifer) Hirschfeld of York. His grandchildren include, Creighton Hirschfeld, Chase Cotton, Brynn Hirschfeld, Atleigh Hirschfeld, Addison Cotton, Reese, Kendyl and Breckon Hirschfeld. Also surviving are two brothers Roger (Betty) Hirschfeld and Ronald (Sharon) Hirschfeld all of Benedict and Linda (Steve) Peterson of York. Sister-in-law Cinda Hild of York, brother-in-laws Robert (Terri) Doremus of Polk and David (Mary) Doremus of Benedict. He is also survived by special friends Greg and Julie Norman, along with several nieces, nephews, cousins and a host of friends. Ross never knew a stranger.

Ross was preceded in death by his parents, parents-in-law, and one nephew.

Funeral services were held on Thursday, Dec. 8, 2016, at First United Methodist Church, York, Neb., with the Reverend Dan Spearow officiating. Memorials may be directed to the Benedict United Methodist Church, and a scholarship fund aimed at helping future Ag leaders.

Condolences may be emailed to Metz Mortuary at metz@metzmortuary.com. Messages will be given to the family.

Without papers, it's just another

A performance pedigree is more than a piece of paper – it's your word. It says your breeding stock is a superior product backed by superior genetics and predictable performance.

TWO OF

A **KIND**

By Ann Fry

Huinker brothers John and Wayne have the purebred swine business flowing through their blood. Their grandfather started raising Poland China hogs, in 1920, and their father switched to Durocs, in 1960. Today, the third-generation seedstock producers are carrying on the family tradition.

Wayne Huinker

John Huinker

The brothers have applied the lessons they learned from a young age on the Huinker family farm in their individual operations. The Huinker patriarch, Dennis, was a man of character, faith and optimism, as well as a sound stockman. He passed all of those qualities onto John and Wayne who are making their own marks in the purebred swine industry.

John has continued raising Durocs on the Huinker home farm, in Decorah, Iowa. He and his wife, Ruth, raise approximately 150 sows and sell semen on 25 boars. Like many producers of his time, John's operation initially focused on raising breeding stock to produce terminal market hogs for commercial producers. As the industry changed,

share of power washing and handles the bookwork. Wayne and Roxanne were honored, in 2016, at the Iowa Pork Congress with the Iowa Master Seedstock Producer Award for their dedication to the purebred swine industry. Ruth, John's wife of 38 years, takes care of daily feeding, processing pigs and shipping semen, as well as the bookwork at Huinker Durocs.

The adage, "Behind every great man is a great woman," is not only true in the Huinker's personal lives, but also in their sow herd. The brothers agree the sow herd can make or break an operation.

"I was once told, 'Your sow herd owes you a living, you don't owe them a living.' Your sow herd is your factory for success. We put about a 70 percent emphasis on the dam

Good things have happened for both John and Wayne in terms of show ring success. Wayne recalls when his daughter, Julie, won the Iowa State Fair 4-H Show, in 1993, which happened to be her first year showing at the state fair. Another daughter, Lisa, had the Reserve Champion FFA Market Hog, in 2004, with a purebred Yorkshire sired by a Huinker boar. Long-time customer Jake Keppy drove the Champion FFA Market Hog, in 2012, also a purebred Yorkshire. Those two hogs are the only two purebred Yorkshires to ever make the Sale of Champions at the Iowa State Fair, to date.

John fondly remembers showing the Champion Duroc Gilt at the Iowa State Fair, when he was about 10 years old. The gilt went on to be sold

"I was once told, 'Your sow herd owes you a living, you don't owe them a living.'" — John Huinker

John and Ruth transitioned their operation to raising showpigs. They now sell pigs all over the country through online sales, private treaty deals and National Swine Registry (NSR) events. Bred gilt and semen sales have replaced the income from domestic commercial boar sales, yet international demand for Huinker Durocs genetics has grown in the last few years.

Four miles down the road, Wayne also raises purebred seedstock. He began a partnership with his uncle, Dave, in 1977, which at that time consisted of Spot, Yorkshire and Landrace hogs. Eventually Wayne and his wife, Roxanne, ventured out on their own with the Yorkshires. Today, they run 150 sows and 10 boars. Their focus has also changed over time, and now they mainly sell showpigs and gilts to make showpigs.

Both brothers are quick to tell you they couldn't run their operations without their wives. Wayne's wife, Roxanne, processes all the baby pigs, does her

of our replacements," John says.

John goes on to say selection of replacement gilts and boars starts at the ground with quality toes. He also takes a close look at hip and hind leg, which for him is critical to longevity and functionality. Overall, he wants a balanced hog with a few of the extras – big blade, more rib shape and added structure – thrown in.

"If you select for these combined traits from your most productive, high-performing, top-end sows, good things will happen," he says.

for \$4,000 to Tam Lee Farms. In 1997, John was asked to judge the Illinois State Fair. He picked a boar known as Red Ace to be champion. A record sale followed the show, and Red Ace sold for \$40,000. Another of John's favorite show ring memories is when his son, Lee, showed the Champion Duroc and Champion Overall at the Iowa State Fair 4-H Show, in 1995.

As competitive as the show ring can be, John has learned, at the end of the day, the industry is really about the people.

"I am in a business of passionate, hard-working people that love to compete, but when the competition is over the people are friends forever," John says.

Wayne agrees that the best part of the swine industry is the people.

"The people we have met and come into contact with because of pigs is a long list. Many have been friends for a long time," he says.

All of John and Wayne's children participated in 4-H, and they are looking forward to

John Huinker's favorite place to be is with his family on Christmas Eve with all of the kids home and grandchildren crawling all over him. Pictured above are John and Ruth Huinker (third and fourth from right) with their family.

“My advice to other producers is to take the time to support and encourage the young people. They are the future of our industry.” — Wayne Huinker

watching the fifth generation step into the show ring. Although the brothers may spend a lot of time trying to make the next generation of hogs better, they also know it is important to invest in the next generation of livestock enthusiasts.

“My advice to other producers is to take the time to support and encourage the young people. They are the future of our industry,” Wayne says.

Wayne sees the popularity of showpigs for youth projects only increasing. He recognizes trends will constantly change, and producers have to be willing to make adjustments to stay relevant. However, he is confident the demand for sound, quality breeding animals will always be there, no matter the current trend.

“I think there will always be a market for good-doing, sound hogs. That will never change. We will continue

to make sound, functional, all-around type hogs,” he says.

John agrees that quality livestock will never go out of style. In his opinion, the future is bright for anyone producing showpigs or breeding stock, including the Huinkers.

“Our operation will continue to produce genetics for both the showpig industry and breeding stock needs,” Huinker says. “One thing that will stay the same is our passion and ability to breed the best genetics for

It is important to Wayne and Roxanne Huinker (third and fourth from right) to support young people in the livestock industry. All of their children were 4-H members, and they can't wait to watch their grandchildren in the show ring.

their intended need, whether it be showpigs that feed well and are very competitive or breeding stock that make the next generation better.”

STAMP

of Approval

By Cassie Godwin

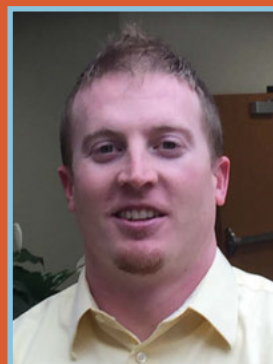

There is a long line of trailers slowly making their way to a station where a veterinarian will check your Certificate of Veterinary Inspection (CVI) and either give you the stamp of approval or pull you aside to answer more questions. So what is the trick to always getting the thumbs-up? The Seedstock *EDGE* team paired up with staff veterinarian, Dr. Justin Roach, of the Oklahoma Department of Agriculture, to answer your questions.

It's very clear that CVIs are not only important to federal and state officials, but equally important to producers, livestock shows, veterinarians and livestock markets.

This form of documentation serves two main functions:

1. It proves that animals are healthy prior to being transported.
2. It provides individual animal identification.

Dr. Justin Roach
Staff Veterinarian,
Oklahoma Department of Agriculture

Each show's health regulations are determined months prior to the livestock show taking place. The health regulation and CVI approval process is three-fold.

1

Show management writes the show's health requirements based on the host state's health regulations. If the show includes a sale, show management will draft rules to effectively meet any additional regulations pertaining to where pigs will most likely be sold.

2

Show staff will designate an official show veterinarian. During the event, the show vet will inspect each exhibitor's CVI, making sure that all requirements have been met and that all necessary information has been provided.

3

The official show vet works closely with their host state vet's office to ensure all requirements are met. In the event of a show and sale, the official show vet will also reassign the CVI of the animal being sold to its new owner. The show vet works to meet import requirements from various states before and during the sale. This ensures animals being transported home with their new buyers are accompanied with a valid CVI meeting all specific state import requirements.

An example of a CVI

Everyday thousands of head of livestock are transported from one state to the next. Each of these states differs in terms of livestock industries and levels of health risks. Therefore, to help prevent, control and monitor both management and regulatory diseases, it is critical to always have an updated and accurate CVI. The layout of a CVI varies from state to state, but all CVIs include the same information.

Valid for no longer than 30 days following the date of inspection of the animal(s) identified on this document.

NO. 85-XXXXXX

Entry Permit

Statements

Identification (840-tags preferred) Vaccinations & Blood Tests

ASK THE VETS

How often do I get a new CVI?

JR: A CVI is valid for 30 days for the listed destination.

Upon exhibitors arriving to the event location, what will health inspectors evaluate on the CVI?

JR: Our livestock inspectors are going to be asking exhibitors for the original CVI, commonly referred to as a health certificate. They are going to be reviewing this document to make sure that it's valid, that it's been issued at the correct time, that there is an import permit for out-of-state animals, that each animal meets the requirements for pseudorabies and brucellosis testing and that each animal has official identification. Lastly, they will

visually inspect the animals in the trailer to make certain they are all identified, appear healthy and that the number of animals doesn't exceed that which is listed on the CVI.

Why do some shows require that pigs are blood tested for pseudorabies and brucellosis while others do not?

JR: Each state has different livestock industries, different diseases present within the state and different levels of risk they're willing to accept for each disease program. In regards to Oklahoma, we have one of the largest commercial swine industries in the nation, as well as one of the largest show swine industries. It's important to

CVI Checklist

Preparing for the next show? Use the following checklist to ensure CVI requirements are met.

1. Have a pre-established Veterinarian-Client-Patient Relationship (VCPR).
2. Review the published health regulations for the show to determine both state AND show-specific requirements.
3. Schedule an appointment with your veterinarian to inspect animals heading to the event and provide you with a CVI. Be sure appointment date meets the show's cutoff deadline to issue the CVI but also leaves adequate time to complete any required blood testing.
4. Present the show's health regulations to your veterinarian and review requirements well in advance of the event.
5. Have your veterinary check the specific-state import requirements.
6. Review your CVI with your veterinarian to ensure all information is correct and completed before traveling to the show. NJSA and NSR shows typically require the following sections to be included on a CVI:
 - a. Exhibitor (Consignor) Information:
 - i. Name, phone number, address
 - ii. Premises ID number
 - b. Destination Information:
 - i. Name and address of show and fairgrounds (as posted in health regulations)
 - c. Animal Identification:
 - i. Federally approved, permanently numbered ear tag
 - ii. Animal Ear Notch
 - iii. Animal sex and breed
 - d. Required Statements (example listed below):
 - i. *Must include the following "Farm or origin of swine" statements*
 - *Has not had Pseudorabies or swine dysentery in the last 12 months*
 - *Has not had any clinical signs or diagnosis of TGE or PEDv in the last 60 days*
 - *Feeds no raw garbage and uses no PRV vaccine*
 - *Is not under quarantine for any disease condition*
 - *Has not had vesicular stomatitis diagnosed within 10 miles of farm or origin in the last 30 days*
 - e. Blood Testing: *Remember to clearly understand the following*
 - i. What is required for Pseudorabies (PRV) testing?
 - ii. What is required for Brucellosis testing?
 - iii. If testing is required on individual pigs, do I need an official test chart of the results?
 - f. Vaccinations (examples listed below):
 - i. Leptospirosis (6-way) including Bratislava and Erysipelas vaccinations, Mycoplasma vaccinations, Circovirus vaccinations

Definitions

Vaccinations: Any immunization specifically required for animal import or show.

Blood Tests: Any serologic tests required to prove animals have not been exposed to a specific disease.

Statements: Any miscellaneous statement about the disease/health status of an animal that has not been captured within the standard criteria of the CVI.

Entry Permit: A number issued by a state certifying that all entry requirements have been met.

Identification (840 tags preferred): Every hog is required to have official identification. This identification includes: sex, ear tag and ear notch. Additionally, every animal that is being transported must be identified on the CVI.

both of these industries to maintain freedom from both pseudorabies and swine brucellosis. However, a common misconception is that a state's "free" status for these disease programs means that the state is completely free of that particular disease. In reality, these statuses only apply to the commercial sector of the swine industry, and not to any outdoor, transitional, show or feral swine. The prevalence of these diseases in feral swine populations is relatively high, and we have occasional disease incursions into our domestic outdoor swine. In 1986, there was an outbreak of pseudorabies in show swine and the entire show season was shut down throughout the state. We want to avoid those situations and the impacts these diseases can have on markets and trade.

Therefore, Oklahoma requires that all non-commercial swine be tested for pseudorabies and brucellosis prior to entry regardless of the exporting state's status.

In regards to the state of Oklahoma, do I have to have an entry permit to enter from out-of-state? If so, what is this for?

JR: Yes. An entry or import permit provides further assurance that the entry requirements (disease testing, official identification [840 tags preferred], etc.) are being completed. This is necessary since Oklahoma has the disease testing requirements that many

other states do not. Without it, many veterinarians would complete a CVI without proper testing.

What happens if I don't have the proper information when I get to the show?

JR: If the missing information is simply a show requirement, but not a state entry requirement the exhibitor will likely just be inconvenienced until the proper information can be provided and validated. That trailer would not be allowed entry to the fairgrounds until that information has been received. However, if the state's entry requirements are not met, the consequences would likely be exclusion from the fairgrounds for the entirety of the exhibition and potentially regulatory enforcement actions.

What advice would you give to an exhibitor to make sure the required health regulations are met for a particular show?

JR: I recommend visiting the show's website or speaking with the show manager to determine the show-specific requirements. You should then take those requirements to your veterinarian and work with him or her to make

certain that not only the show's requirements are being met, but that also the state's import requirements are being met. Many times the state import requirements will cover the show requirements, but sometimes a show will have additional requirements, like certain vaccinations or statements on the CVI. Lastly, review the completed CVI before you start the trip hauling livestock.

What are the most common CVI mistakes that you see?

- CVIs without an entry permit number
- Swine without official identification (840 tags preferred)
 - » Identification not applied to the animals but listed on the CVI
 - » Identification applied to the animals but not listed on the CVI
- "Delivery" swine that arrive without any of the state entry/show requirements because the transporter is "just" hauling them and delivering them to/for someone else

From the Field

Mick Bellamy | mick@nationalswine.com

NSR Field Representative

We were greeted with great weather for the 2016 edition of the National Swine Registry (NSR) Fall Classic in Duncan, Okla.. The set of hogs that were brought to this event matched the weather perfectly. The crowds were enormous for the entirety of our stay, and the acceptance of the weanlings and open show hogs was excellent, as usual.

Rick Whitman, of Texas, judged the Duroc show at this year's Fall Classic and did a great job! Rick is one of the premier Duroc breeders in the nation, and it was interesting to listen to him describe the hogs after he finished judging each class. He was assisted by his wife, Niki. Thanks, guys. Job well done!

I would also like to thank the young men and women from Oklahoma State University (OSU) and Iowa State University (ISU) that worked tirelessly all day penning hogs and running hurdles during an active boar show. Thank you all!

As usual, Col. Kevin Wendt was outstanding on the block. He's one of the elite auctioneers in our industry. Thanks, Colonel!

We started the Duroc portion of the sale, on Saturday morning, with the presentation of this year's Premier and Reserve Premier Duroc Sires. The Premier Sire at the 2016 Fall Classic was OAB4 Can't Stop 8-3, owned by Upperhand Genetics and Blane Olson. The Reserve Premier sire was NBRP He's The One 15-6, owned by Hi Point Genetics. That's not the first time these two great sires have been honored this year at our NSR events. Congratulations to these three firms for their continued success.

We started the Duroc sale with this year's Champion Duroc Boar. The winner of Class 4, on show day, this Jack Rodibaugh and Sons entry was a son of NBRP Class Act 15-8. This one was as problem free as any red boar shown all summer, yet extreme enough in areas to make progress. Big chested, ideal on his feet and legs, tall shouldered, muscular and square made; he was just a flat out good red boar. He topped the boar sale at \$17,000 and went to Stewart's Duroc Farm, Iowa, and Schenken Genetics, Texas. Great boar buy!

Isla Grande Farms, Ohio, were next with the Reserve Champion Duroc Boar. Rick's boar won an extremely deep Class 3, on Friday. This son of MJFF5 Kingdom Comes 8-4 was one of the more extreme boars at this year's event. Huge-legged, stout-skulled and really opened up when he came straight at you, this one was really intriguing. Three Oklahoma firms teamed up to buy this one. Vaughn Jackson, Austin Kindschi and Rick May are the new owners of this one at the sale's third top figure, of \$7,000.

Big Papa's Show Pigs, Kansas, brought their Class 5 winner to the ring next. A son of MAFF4 Lifetime 4-10, this guy was one of the biggest-chested, biggest-ribbed boars in the barn. He was stout, moderate and extremely square

made. He sold to Kent Foster, of Oklahoma, for \$2,800. It will be fun to see what he can do with this one.

Meeker Durocs, Illinois, won Class 2 with an extremely sound, muscular son of RLR4 Man Up 15-2. The winner of the youngest class was Alison, Gabriel and Lane Hartman, from Oregon. Their young August son of ZACH3 Crown Royal 33-4 was a stout, sound hog with really good shape.

The Todd Hopkins boar that was second behind the champion, in Class 4, was another popular boar on sale day. One of the stoutest boars shown, this one was really powerful in his shoulder, chest and ribcage. Combine this with an immense rear leg that was nearly ideal on the move and you've got one of the more interesting boars who was offered, on Saturday. This son of TPSP5 Impressive 8-3 was the second top-selling boar at \$7,500 and will be available for everyone to sample at Upperhand Genetics, Indiana.

A couple of other boars of note were the Palmer Show Team and Knight Genetics entries. The Palmer boar was an extra-attractive, super-sound one who still had a lot of mass and dimension. He was sired by the 1PST5 Head Hunter 22-3 boar that the Palmer family sold at the 2015 NSR Fall Classic to Crossroads Genetics and Beyers Durocs. It's always refreshing to see someone have enough confidence in their genetics to plug them back into their own program. This guy went to a couple of the top breeders, in Texas. Weldon Walser and Harman Farms teamed up to take this one home. He will get a great chance there. The Knight boar was sired by OAB4 Can't Stop 8-3 and came out of the deep class the reserve champion was in. This one was big centered, really opened up and had a ton of product. He also went to Texas with Chuck Real, James Holt and Doege Farms joining forces to acquire him. He should really get a chance there.

Knight Genetics brought their Champion Duroc Gilt in the ring to lead off the female part of the sale. These young men have had a tremendous summer and ended it on a high note, at Duncan. The winner of Class 2, this daughter of OAB4 Can't Stop 8-3 was an excellent champion. Feminine, attractive and sound, while still having a big chest and ribcage made this one really popular. Her muscle mass and inner dimension made her one of the really good red females offered this summer and fall season. Thanks to Joe Coyne, from Illinois, for buying this gal. She will sure get a good chance.

Hadley and Hogan Hendrickson's Reserve Champion Duroc Gilt and winner of Class 3 was next. Yet another daughter of OAB4 Can't Stop 8-3, this was one of the more unique females offered sale day. She was as big bodied, big ribbed and square as any red female in the barn. When you combine this with the fact that she was muscular and had performed really well while staying correct on her feet and legs, you had a special kind of female. She went to the

Hofschulte Family, in Oklahoma, for \$4,250. They will know what to do with her!

Next in the ring was the Class 4 winner, shown by Brylee and Caylyn Jarboe. Sired by NBRP5 New Direction 15-3, this gal had a monstrous chest floor, big, square feet and a ton of muscle. Combine this with a great running gear and Kent Foster, Oklahoma, got a great buy, for \$800.

Henslee, Taylor and Piper Powell had a daughter of RAFD4 Backwoods 1-4 who won Class 5. This lady was sound, muscular and could flat get out and go. She went to James Holt, of Texas, for \$750.

Meeker Durocs won Class 1 with their daughter of MEKR4 TCG World of Outlaws. Dan's gilt was really basic, complete and fault free.

RW Genetics had their judge's consignment enter the ring

next. A daughter of RWG4 No Brainer 110-1, this lady was really big bodied, maternal and feminine. She combined these traits with a tremendous set of feet and legs. She was an excellent buy for Ted and Pat Herber, of Oklahoma, for \$600.

Knight Genetics, Platt Show Pigs, Huinker Durocs and Blane Olson also had really popular gilts later in the sale. It was an extremely deep set of females that gave you the opportunity to accomplish just about whatever you're working on at your house.

With the summer and fall season just about wrapped up, I'd like to thank everyone for being part of the great events we've had this year. This industry just continues to get better and better. I hope everyone had a great Holiday Season, and here's to wishing everyone a healthy and prosperous 2017. We'll see you in Georgia!

NSR Field Representative

It's always a good day to be showing Hampshire hogs, and the Fall Classic has proven to be a good place to not only exhibit the belted breed, but to also gather up new genetics and breeding pieces. This year we were pleased to have Col. Kevin Wendt, Ohio, judge the Hampshire breeding stock. Kevin, as most of you know, has served as the Hampshire auctioneer for quite some time, he also sits on the Hampshire Board of Directors. We all know him for the great job he does in these roles and it is always fun to watch him judge a show, and even more enjoyable to give him a hard time during the sale. On behalf of the National Swine Registry (NSR) and Hamp Board, I would like to thank Kevin for doing a great job sorting the show, and as always for the professional job of selling the breed.

The Champion Hampshire Boar, at the 2016 Fall Classic, was entry 160-1 exhibited by Brenna and Macy Mortensen, Michigan. The Mortensen boar was sired by JKG5 BOOT-ED OUT 14-1 and out of a OTTN3 WEST POINT 60-3 sow. This boar's advantages of being so fault free and basic got him up to the top. This hog wasn't one I would say is out there in any one area, but very safe and practical in so many ways. The boar's joints, feet and legs all worked in an effortless way, he was fluid in his movement and when you study him from the side he was an attractive hog with the look we have all been seeking. I call him square underneath and a hog that matches that width at his blade and pin set. He has the kind of muscle that can be used to make females or showpigs alike. Congratulations to Zach Eastmand and Don Quesenberry, Ohio, for their purchase of the champion.

Kyle and Laura Baade, Nebraska, exhibited the Reserve Champion Hampshire Boar, their son of BOLN4 MAN AMONGST BOYS 22-3 was out of a GMW4 SILENCER 9-4 dam. Kyle's boar was what I call a moderate, heavy boned boar with a huge 11.1 loin eye. From the side, this guy had a stout head and jaw line, big forearm and above his skeleton he was huge bladed, bold in his upper rib, with a wide pin set. He is really a neat kind of boar that could help out a lot of firms. Congrats to Jet Aerospace Genetics and B.J. and Sue Orgis, Texas, for their purchase and good luck with him.

George and Mike Watson, Indiana, were next in the ring, on sale day, with the Class 3 winner. This boar is a son of JSE5 CHANGE UP 132-4. CHANGE UP is the new herdsire that Mike purchased from Steve and Derek Earnhart, Indiana, last year, and is doing Watson a good job. The dam of Mike's boar is a KMRE3 HAYMAKER 11-5 sow. Paint brand 18-1 is a boar that had a lot of places I really liked, in terms of being a tall-shouldered, good-looking hog who didn't give up any structure or muscle in the process. Wendt says he can make some females, and coming from Watson that is true, but I would say this guy has a chance to make just about anything you want him to. Joe Lancaster, Oklahoma, will put him to work; watch and see what happens there.

Earl Cain and Family, Iowa, was next with their Class 1 winner; BJKE5 GRUS FUGITIVE 2-1 x FSF3 CLYDESDALE 12-2 is how his pedigree reads. One of the younger hogs in the show, but also one of the more interesting boars on show day. The Cain boar was a neat hog that was moderate framed, square built with a cool look from the side. When you studied him up high he had a big, grooved top and was big hipped and square going away. This guy had plenty of width leaving, but handled it well; keeping his hock inside his body and still having some extra bone and foot size. Lean Value Sires, Ohio, are the new owners of the Cain boar. Be sure to check him out when making some breeding decisions.

Steve and Derek Earnhart, Indiana, were next, in the ring, with this year's high seller. The Earnhart boar was a JSE5 DREAM SQUASHER 37-1. DREAM SQUASHER is a herd boar that Steve and Derek kept last year and has really made an impact in a short time for them. The bottom side reads JSE2 OZ 54-5, making somewhat of a lined up pedigree with lots of JSE genetics represented. The Earnhart boar had quite a bit of talk coming into the sale. He has a really different pedigree for most and is a good hog too. This boar was a notch bigger framed with the extension up front we have all been talking about; he was long hipped and had a flexible hind leg. I really like this guy from the side; good looking but still stout in his features with plenty of muscle. Triple B and Jerry McLemore, both of Oklahoma, went together to get him bought, congrats to all.

It seems wherever we have been this summer Hampshire gilts have had a great deal of quality, and with that quality comes really solid prices on sale day, the Fall Classic followed suit with that trend. Anytime we can have a gilt sale and average over \$2,500, I sure call it a success. Congrats to everyone who brought quality gilts to Duncan and keep up the good work.

We had a good gilt to lead off the sale with on Saturday. Entry 182-1, the class winner of Class 4, was our champion this year driven by Platt Showpigs, Indiana. This daughter of KORB4 ALL EYES 23-7, was out of a female that the Caldwell family, Illinois, drove to championship honors, at the 2014 World Pork Expo. The Platt gilt sure got a lot of attention when she hit the ring and really represented what a modern show gilt looks like. Really a good-looking, tall-shouldered gilt who's angles laid in her skeleton correctly. Plus, this gilt had the extras in terms of bone and stoutness that it takes to be a champion nowadays, and still looked like a lady up front. Congrats to Platt on bringing one of this quality, and good luck to Shaffers Gold Rush, Indiana, on adding this breeding piece into their programs.

The Reserve Champion Hampshire Gilt this year is another one that sure represented what a Hampshire female needs to look like. Cody and Samantha Smith, Indiana, drove their BOLN4 MAN AMONGST BOYS gilt to reserve honors. If you have paid attention to their program, they

have been using a pair of GMW1 LOOK AT ME 4-1 sows that have been doing a great job for them. Those sows have become famous for being the pair of show gilts the Smith and Malcolm Families drove at the Summer Spectacular a few years back now. I know many, like myself, that sure like to see those sows in the pedigrees of what Cody and Samantha bring out. The Duncan gilt sure did a lot of things right; wide made, heavy boned and so functional on her feet and legs. She really looked like a female about her head and neck and she still covered the bases of body and rib with a good underline. This one can sure make an impact in lots of herds.

Tim and Luanne Arkfeld, Nebraska, won Class 2 with a FNKA3 WILD TURKEY 2-2 x FSF3 CLYDSDALE 12-2 gilt. This gilt would be a full sib to the very popular Hamp gilt he exhibited at the 2016 World Pork Expo. What can I say about the Arkfeld gilts? I seem to always be a fan of the females they bring out and that is the case with this one too. She was one of the most unique Hamp gilts to be sold this year, in my opinion. So neat up through her front end, she was still moderate framed and square built. She had plenty of power up high, a bold rib cage and a very useful hind leg. Congrats to Arkfeld, and good luck to Jet Aerospace Genetics, Texas, with their purchase.

Lorelei Prichard, Georgia, drove the Class 1 winner. The Prichard family brought a pair of younger gilts to Duncan

this year; they were some of the youngest hogs in the barn but really were a solid set. Paint brand 186-1 was sired by SRF4 SGLD THE REVERAND and out of a JLM3 CARRY ON 21-1 sow. This gilt was really bred in a way that she could have great value in a lot of different situations; I like that pedigree to make sows. This gilt sure looked like she had a ton of future. She was made really correctly and attractive, from the side. She sure looked like the kind of gilt it would be fun to watch grow up and pick out a boar to breed her to.

When you look up and down the sale report it's easy to see what a solid sale this was; really good prices for good quality gilts, including the second high-selling gilt that was down the line from Steve and Derek Earnhart, Indiana. Just goes to show it doesn't really matter where they place, people will find the good ones. Thanks once again for the great job Col. Kevin Wendt, Ohio, for not only judging, but also selling the Hamps this year. Also, thank you to the great barn staff at the Stephens County Fairgrounds, as well as our good friend, Don Frailey, for help in the ring; we can't pull off these kind of events without your help.

The National Swine Registry (NSR) Fall Classic in Duncan, Okla., ends the summer and fall season for the NSR. It was an excellent event that ran smoothly from beginning to end. This event would not be possible without all the cooperation we get from the city of Duncan and the crew at the Stephens County Fairgrounds. Their hospitality and hard work ensure we have a successful event every November. Lyndol and the crew work their tails off preparing for our arrival and work long, hard hours after we've packed all our supplies and headed home. Thanks to one and all. We couldn't do it without your help!

Thanks also to the young men and women from Oklahoma State University (OSU) and Iowa State University (ISU) that helped keep the show running so smoothly, on Friday. Great job! Also, a big thanks to Col. Ron Kreis for his great job auctioneering the Landrace portion of the sale. Ronnie is one of the best. Thank you!

The Landrace show was very capably judged by Travis Platt, owner of Platt Show Pigs and Upperhand Genetics, Indiana. Travis is truly one of the great young minds in our industry, and we thank him for a job very well done.

While not large in numbers, the quality was good in the Landrace show. The two boars entered were in Class 1. The class winner and champion was a son of DOVS2 Bad Cat 9-8, exhibited by Jake and Jodi Toler, of Texas. This young boar was level made, long hiped and had a good amount of muscle. The second place boar and Reserve Champion Landrace Boar was a shown by Little Farms Inc., from Iowa. This son of JMG4 GRUS Wall Street 26-6 was a big, stout, boar who was really correct and sound.

The Champion Landrace Gilt came out of Class 2. This daughter of KORB2 Revolution 12-2 was shown by McGrew Show Pigs, of Illinois. She was a tremendously big centered female that had a really productive look and balanced up quite nicely. She will certainly get a chance to make this breed better at Brandon Ogle's farm, in Illinois. Great buy!

The Reserve Champion Landrace Gilt also came out of Class 2. Little Farms Inc. were the breeders of this one. This daughter of JMG4 GRUS Wall Street 26-6 was long fronted, wide chested and muscular. This female was the first purchase, of the sale, for William Blocker, of Arkansas.

The next entry in the ring was the winner of the youngest class and exhibited by Jake and Jodi Toler, Texas. This young gilt was also a daughter of the JMG4 GRUS Wall Street 26-6 boar. She was well balanced, big hiped, really tall shouldered and attractive. She was the second purchase, for William Blocker, and sure looked like she could join the Little Farms Inc. gilt in helping this firm make good progress.

There are plenty of opportunities for the Landrace breed to make big strides in this part of the country. Next year, plan on bringing some quality Landrace hogs to this event. The hogs were good this year; there just weren't enough of them. There is always a demand for good livestock at our NSR shows.

Good luck as winter and spring farrowing season is upon us. We will see you in Georgia!

Michael Lackey | michael@nationalswine.com

NSR Field Representative

Great weather greeted the mob of purebred enthusiasts as they arrived in Duncan, Okla., for the 2016 Fall Classic. Yorkshires were first in the ring Friday morning. We had a nice set of hogs that offered some truly unique breeding pieces. Dr. Mark Hoge, of Good Hope, Ill., was selected this year to line up the Yorkshire breeding stock. He was assisted by Kent McLemore, Okla.. It was fun watching these gentlemen sort through the stock. Mark and Kent, thank you for your time. The Premier Sire went to CDO3 Power On 282-7, owned by Upperhand Genetics and Chuck and Ben Olsen. The Reserve Premier Sire went to RIY4 Gain Control 87-5, owned by Moyer's Genetic Edge and Kevin Ricker.

This year's Champion Yorkshire Boar was the entry from Mark & Sandy Ottenwalter, of Colusa, Calif.; this herd sire won the oldest class of the day. He is sired by TBRO4 Yet Again 7-2. If you are interested in producing Yorkshires that will compete in the market hog shows than this guy should be at the top of your list. He is heavy structured, square underneath and has a great look from the side. He is square and true from hock to ground and sound on both ends of his skeleton, and does all of this in a moderate package. He will go to work for Brent Bolen (High Point Genetics), of Chrisman, Ill., for the price of \$37,000.

The Reserve Champion Yorkshire Boar was the entry from Oklahoma State University (OSU) of Stillwater, Okla.. If you are in need of a boar that will make them tall fronted and put a huge square chest in the next generation look at this guy. Plus he is very correct and balanced. He is big and bold in his rib, big skulled and from behind he has plenty of shape. This sound-footed and good-legged boar will head to Pleasantville, Ohio with Thompson Brothers Genetics. They paid \$12,000 to own this son of OSU4 Under Control 21-4.

Ricker Yorkshires, Fort Jennings, Ohio, was next with an entry that won Class 2 and son of RIY5 Spit Fire 59-5. If you like your Yorkshires wide and square at the top of their blades, big backed, square from behind and heavy structured; than this guy is one that you need to use. Look for him at Upperhand Genetics of Huntington, Ind.; they paid \$3,000 to load him on their trailer.

Next in the sale ring was Hahn Genetics of Wakarusa, Ind.. This boar placed second in Class 3. He is bold and massive in his rib shape, and wide and square in the lower third of his skeleton. He is big and square down his top, and muscular in his design. He is sired by LFC4 SGLD Enterprise 71-1, and will go to work for Jared Frueh, of Ohio, Ill., and Grimm Purebreds, of Maynard, Iowa, for the price of \$1,500.

Kent was back in the ring again with a son of DJDS5 BOB 5-4. If you need a big ribbed, muscular boar who will sire daughters that will be functional in the crate, than this guy

may work for you. He sold to Mid Atlantic Semen Supply, of Woodbine, Md., for \$800.

Next up was the entry from Jack Rodibaugh & Sons, Rensselaer, Ind., that placed second in the youngest class of the day. This good-looking, sound and functional son of 1BSY5 Touch N Go 1-9 sold to Brandon Grigsby, of Bartlett, Texas, for \$700.

The Yorkshire gilt sale seems to always gather a crowd, and this year we led of the female sale with the champion entry, from the Palmer Show Team, of Idabel, Okla.. If you like your gilts tall fronted with a killer look thru their front end and shoulder, than this daughter of RIY3 Bone Buzz 87-7 was your kind. This female is long fronted, tall at the point of her shoulder and has a great show hog head carriage. She is correct in her size, and still maintains good length of body. She is feminine and looks like a show gilt that everyone is trying to produce, for NJSA shows. She will make a nice addition to the HF Genetics herd and will make her way to Port Lavaca, Texas, for the price of \$5,000.

The Reserve Champion Yorkshire Gilt honors went to Colby Howard, of Elgin, Okla., with his daughter of SDF5 Lit Up 21-6. This big-ribbed, wide-chested gilt is stout skulled and good in her bone work. This one looks like she has a chance to produce stout show barrows, yet she is still feminine in her look; having a great underline and good shape and size to her vulva. She sold to Farriell Farms, Prague, Okla., for \$3,750.

Kevin Ricker, of Fort Jennings, Ohio, was in the ring next with a daughter of RIY4 Gain Control 87-5. This gilt was one of my favorites. Kevin always brings out high quality gilts that are great looking, sound, functional and go home and get the job done for their new owners. This one is no exception; she has all the basics covered and several extras to go with it. She sold to Greg & Vince Franckowiak, of Saint Hedwig, Texas, for \$7,000.

Isla Grande Farms, of Marion, Ohio, was up next with their class winning entry from Class 2, sired by WGW5 Jupiter 46-17. This lady was big footed and correct in her design. She was tall fronted, level made and looks like a productive Yorkshire female. She sold to Jessie Heimer, of Taylor, Mo., for \$4,500.

The class winning entry from the first class of the day made her way to the sale ring next; driven by Philip Schmidgall, of Eureka, Ill.. This square-built, good-structured, tall-fronted gilt was sired by RWG4 The Prophet 4-1 and sold to Warren Willis, of Hugoten, Kan., for \$1,500.

Yorkshire breeders, you should be proud. This was a nice set of breeding hogs, but we still have some work to do to make them better.

Lyndol and crew, I know it was a long week, but thank you for all that you do. We couldn't do it without you guys.

To all the ring help from OSU and Iowa State University (ISU), THANK YOU. We just couldn't make this show run as smoothly without your help. Ron Kreis, it is always a pleasure to work with you, Thank You for another great

sale. And finally, THANK YOU Empire FFA, I don't know what we would do without your help during the Weanling Sift and baby pig sales.

Sold to Crossroads Genetics, Ind., for \$60,000.

From the Field

Michael Lackey | michael@nationalswine.com

NSR Field Representative

Amazing weather greeted the National Swine Registry (NSR) crew as they arrived in Duncan, Okla., on Sunday evening for the 2016 Fall Classic. After all the pen cards had been taped up and shavings bedded in the pens, it was time for the hogs and crowds of spectators and buyers to begin arriving. The crowd that showed up Friday afternoon to watch the crossbred show was HUGE. George Cooper and Ashley Flashpolder, Okla., had their hands full judging this large and deep set of boars. Thank you both for your time and positive comments about the entries, GREAT JOB. No records were broken at the 2016 Fall Classic, but we had a healthy sale, for all the exhibitors, and sold a large number of hogs that will be heard from in the future, and impact their breeds in a positive way.

Congratulations to Brinning Farms of Keota, Iowa for exhibiting the 2016 Fall Classic Champion Crossbred Boar. This off-belted son of Wedding Crasher was one that you

needed to take a second look at. This guy is stout headed, huge legged and wide as he goes away from you. He has a huge, square back in him, plus he's tall fronted and looks like a show hog. This one has a lot of value and is correct enough that he won't get you into a lot of trouble, but just freaky enough that he will move you off center, if that's your goal. He sold to Ted Laird & Family (Premium Blend Genetics) for \$90,000.

I know that when Clardy Farms, of Haworth, Okla., loaded their Berkshire boar on the trailer, to head to the Fall Classic, they had not planned on exhibiting him in the crossbred show, but he was just a few days too old to show in the Berkshire show. Regardless of what ring he showed in, this boar is intriguing! It always amazes me that we can make them so extreme in terms of width, power and muscle, and still keep them square and correct enough in their skeleton, to make a change in the next generation.

He is square and correct in his toe size and placement, and he is big legged and square underneath. This tall-fronted, level-made boar has a HUGE shape to his top and hip. If you are a Berkshire enthusiast, look up this son of King Kong 28-4; there was a lot of chatter about him in the barn. Call Crossroads Genetics of Clayton, Ind.; they paid \$60,000 to take him home. Congratulations, Clardy Farms on your reserve champion!

There were so many good boars at this year's show; from here on out I'm just going to give you the highlights.

Get R Done Showpigs, of Yuma, Ariz., brought a pair of littermates sired by Pinnacle that had a ton of center and a soft, easy feeding look. Paint brand 92-13 is big and square as you study his loin, and has plenty of hip. If you need a stress negative version look at paint brand 92-14. This pair of boars look like they should sire a barn full of barrows that should be in the mix when you go to shows. HF Genetics loaded lot 92-13 on their trailer for the price of \$17,500, and Triple B Sires got 92-14 for \$10,000.

A.J. Lewis, of Center Point, Iowa, drove a belted son of Bad Donkey to the ring next and won the fourth class. He is taller shouldered, square built and has a great look from the side. If you are looking for a boar that will make hogs better and leave you some keeper gilts to build around give Purple Power Boar Stud a call; they paid \$21,000 to take this one to Indiana.

Cody Birt, of Prescott, Iowa, had a Visionary son that caused a buzz in the barns this year as well. If you need a boar that's more elevated up front and extended ahead of his blade and still really correct in terms of skeletal design,

but without giving up muscle and look, than this guy will work for you. Top Cut Genetics paid \$16,000 for this winning entry from Class 1.

WD Swine Farm, of Calif., drove a popular Pick 6 son out of a Callin' Dibs littermate sister. His pedigree alone should have caught your attention. This guy is great on the profile, has a big top and tons of hip. Plus, his feet and toes all point in the same direction. He has a chance to make the next generation better. Jessie Heimer took him home for the price of \$20,000.

Daulton Family Show Pigs, Springfield, Ohio, had a popular Man Crush son that placed down the line in Class 7. If you need one that's extended up front, tall shouldered, athletic and still has muscle and shape, then look this guy up. He sold to Apex Sires for \$28,000.

There were lots of great crossbreds at this event, check out our website for a complete list of results and find the pieces you need to move your program forward.

Col. Ron Kreis, it is always a pleasure to work with you. THANK YOU for the professional work you do. I need to give a huge THANK YOU to the crew from Iowa for helping in the ring. With the class sizes we had this year we could not have done it without you. Thanks again to the Iowa State University (ISU) and Oklahoma State University (OSU) Swine Interest Groups that helped in the ring as well.

The Fall Classic is always a truly amazing event to witness; no matter what is going on in the rest of the country it always generates excitement for breeders and exhibitors that attend. I hope you have a great Holiday Season and we will see you in Georgia next year!

Sold to Tyler Pritchard, Okla., for \$1,100.

From the Field

Blaine Evans | blaine@nationalswine.com

NSR Field Representative

We all know the weanling pig sift and sale portion of the National Swine Registry (NSR) Fall Classic is something that is hard to describe. For many in the Southwest, it is part of the showpig shopping routine. For those in the Midwest, it marks the end of one season and the start of another.

We have become accustomed to the fast-paced weanling sift on Thursday night. Every year I am impressed with the quality that breeders bring to this event.

It sure needs to be mentioned that the sifters have no easy task when they agree to sort the little pigs. On behalf of the NSR, I would like to thank Willie Kirkpatrick and Ryan Sites, both of Oklahoma, for their efforts. Numbers were slightly off this year but it still made for a long Thursday night, and those two did a professional and efficient job aligning the sale order.

A thank you also goes out to Billy Cheatwood, of the Empire FFA, for bringing us one of the best sets of kids to help swing gates and move hogs. These kids sometimes don't get the credit they deserve. They truly work as hard as they can for us, and we appreciate their efforts.

On Friday night, Col. Kevin Wendt and Col. Ron Kreis, both of Ohio, took on the duty of selling nearly 550 head of weanlings. As always, we thank them for their hard work; it is always a pleasure to work with those two. Also, a thank you goes out to all the ring help we bring in. It is no easy task to work this sale, and we appreciate those who take on that job. We had a good sale this year, with 191 males averaging \$773 and 236 gilts averaging \$739.

From the MIC

We ask questions and give you the answers from your NJSA show judges.

Blane Olson, III. 2017 NJSA Southeast Regional Judge

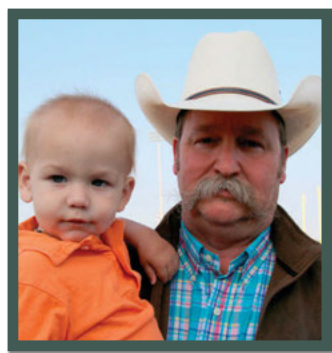

Q: What are you looking for in your champion barrow/gilt?

Balance. Everything needs to fit together and work in harmony. I like hogs that are comfortable in their skeleton. From there I like to add things like stoutness and power. The most important thing is the big picture where everything fits together and works together. None of them are perfect, but I try to find the one that ties the most good into a problem-free package.

Q: What is the best hog you've ever seen?

The Reserve Crossbred Barrow, in the Illinois State Fair Jr. Show, in 2014, raised by Kyle and Ellen Knauth, and shown by the Awe and Aylesworth family. He was just a good hog.

Mitchell Hankins, Ark. 2017 NJSA Southeast Regional Judge

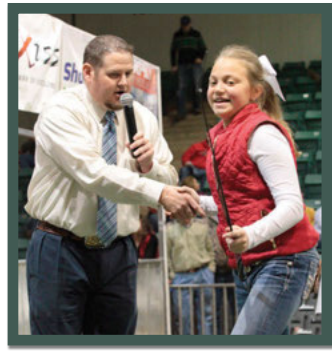

Q: What is your background and current involvement in the swine industry?

We've kept a small sow herd for showpig production nearly continuously for the last 25+ years. During my time as an Ag teacher and County Agent we have been very involved in exhibiting at swine shows. It is especially gratifying today to see many former students, 4-H members and family members that are involved as well, either through exhibiting or as part of their career choices.

Q: What do you and your family do for fun?

Get away for a few days somewhere off the beaten path where we can relax, trout fish, see the sights, etc.

Todd Beyers, Texas 2017 NJSA Southeast Regional Judge

Q: What is your favorite show to attend?

World Pork Expo because it's one of the premier events in the country where you have people from all over the world show up. Not only do you get to see trade show stuff dealing with the commercial side of our industry, but you've also got some of the best breeding stock for all the breeds located at one show. Certainly the junior show adds to it that much more, and we enjoy spending time with family while we're there.

Q: What advice do you have for young people in the livestock industry?

Be open minded, but at the same time, stand up for something you feel strongly about within the industry or what you do in life. However, never settle for what you think is knowing everything about what you're doing. Always have an open mind to be able to learn from those around you, and continue to better yourself.

Publishing Schedule

Since 1980

Purple Circle
AMERICA'S YOUTH LIVESTOCK MAGAZINE

806.499.3749 • 806.499.3759 fax
14200 FM 1062 - Canyon, Texas 79015
www.purplecircle.com • purplecircle@midplains.coop

Who America's Premier Youth Livestock Magazine since 1980 serving the Youth and those involved with the Junior Livestock Show Industry. With no added costs we'll advertise your cattle, goats, hogs, lambs, show supplies, feed or trailers - whatever you have to sell we'll get the word out to bring in the buyers. Besides our magazine we can also put together your brochures.

What Give us a call for all your advertising needs 806.499.3749.

When 24 hours a day / 7 days a week - 365 days a year since 1980 - on the internet and in our publication.

Where Nationwide with subscribers in 45 states, Canada and Mexico. Free distribution to all major livestock shows, numerous state fairs and dozens of jackpots and sales.

Why Because you want to spend your hard earned advertising dollars with the BEST! It's a smart move to advertise with the Purple Circle - we get the job done for the best prices! The Purple Circle serves as a showcase, a public arena, from which people from coast to coast can promote their livestock and products and to acknowledge 4-H and FFA exhibitors from other areas of the Country. You'll also keep up to date with the latest trends and find what you are looking for by subscribing to Purple Circle.

YOU CAN HAVE IT ALL

11-3
CPMW Goliath 39-1 (Fieths Giant) x 51-9 (Fieths Giant)
Her spring 2017 litter by
Fieths Ten Guage 4-3 will be massive

Most of the people reading this haven't seen Hampshires like ours. But you should.

We found that a lot of show ring judges and judging coaches start a lot of things other people have to finish. It's easy to be an expert if you don't have to stay and clean up the mess.

COLT AND MIKE WILLIAMS

18130 Brush Creek Rd.
Higginsville, MO 64037
Mike: 816.797.5450
mwauctions@ctcis.net

Genetics and Selection are the GAME CHANGERS for improvement.

ARE YOU GREEN AND GROWING OR RIPE AND ROTTING?

WW-Paul Livestock Scales

Proud sponsor of the **NJSA**

Model 58SX
500-lb. single animal
livestock scale

The new and improved WW-Paul Scale Model 58SX includes the new side slide, bi-fold gate design for faster and easier operation. The Model 58SX is easily retrofitted with an electronic cell, readout indicator and ticket or tape printer, if desired. Heavy-duty construction guarantees an accurate and dependable livestock scale.

Call for name of nearest dealer.

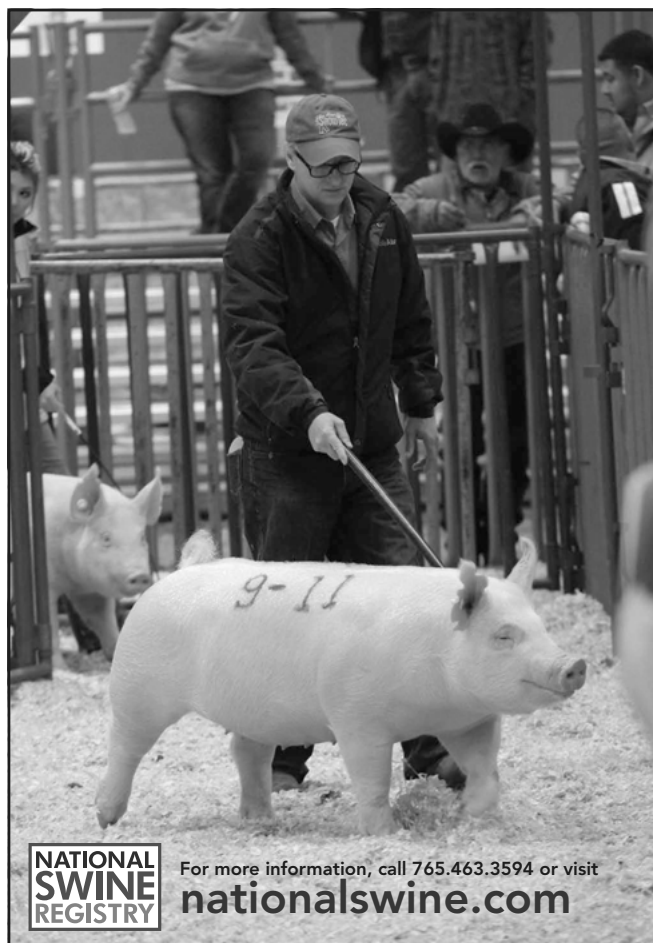

All hog and sheep components are constructed from A-513 high-tensile steel tubing. Framework is fabricated from 1 1/2", 14-gauge tubing, and interior vertical rails are built from 1 1/2", 16-gauge tubing. All joints are saddle cut for extra strength. Gate frame is 72" tall and panels are available in 41" or 48" heights. All units have powder coat finish.

Farrowing sows in January or February?

PRIORITY *one*

“At Hi Point Genetics, we have used Priority One during farrowing since the product became available a few years ago. When we top dress our lactation diet with P1, our sows consume more feed and are in better condition at weaning to breed again. Quite frankly, we wouldn’t want to farrow sows without it!”

Tom Webster
Hi Point Genetics

Make your sow
the **#1 PRIORITY**

- Formulated to stimulate appetite
- Get sows started on feed as quickly as possible after farrowing
- Maintain high levels of feed intake and minimize sow weight loss
- Help prevent constipation
- Maximize milk production
- Return to estrus faster post weaning

FEEDING DIRECTIONS: • Feed 1-2 lb/day in the farrowing house (approx. 1 bag per sow)
Packaged in 50 lb. bag • Feed 3 days prior to farrowing & throughout lactation

Southwest Type Conf. RULES & REGULATIONS*

March 1-4, 2017

Entry deadline: Feb. 1, 2017

*Rules are subject to change

For up-to-date rules & regulations and to enter online visit nationalswine.com

ENTRY INFORMATION

- Entry fees for all entries must accompany the respective entry form.
- All entries must be postmarked by Feb. 1, 2017.
- All late entries will be charged double the regular entry fees. All entry fees are non-refundable.
- The NSR reserves the right to close entries due to pen space limitations any time after the printed deadline.
- All senior exhibitors must be active members of the NSR or must pay the \$75 non-member exhibitor fee. An active senior member is age 22 and OVER, paid annual dues and recorded at least one litter in the 2017 fiscal year.
- Participants age 21 and UNDER are required to pay a \$15 junior participation fee.
- All pedigrees for purebred breeding animal entries must be recorded by Feb. 10, 2017, or an additional rush fee will be charged.
- Berkshire, Chester, Poland and Spot boars and gilts along with Crossbred gilt entries can be submitted through the ABA and CPS offices.

EXHIBITOR REQUIREMENTS

- If an exhibitor has an NSR account that is past due, funds from the sale of their animals will be applied to their past-due account.
- Only exhibitors consigning animals to the Southwest Type Conference (SWTC) are allowed to bring additional animals onto the Bell County Fairgrounds.
- Additional animals MUST abide by the same health requirements as SWTC entries.

ARRIVAL & DEPARTURE

- All hogs must arrive on the grounds between 12 p.m., Wednesday, March 1, and 9 a.m., Thursday, March 2.
- Exhibitors transporting additional animals (deliveries/parking lot sales) must have all additional animals listed on a Certificate of Veterinary Inspection (CVI). Additional animals must meet the same regulations as animals entered in the SWTC.

ANIMAL REQUIREMENTS

- All entries must be ear notched using the official NSR system (starting with number 1 in January and again in July of each year).
- No purebred entries will be eligible to show or sell without a registration certificate.
- Purebred breeding animals must have been farrowed on or after July 1, 2016.
- Purebred breeding animal classes will be divided as equally as possible by farrowing date.
- Crossbred boar classes will be divided by weight.
- Crossbred boars MUST be DNA tested for the stress gene prior to the event. A documented stress test result should be submitted during show check-in.

DNA STRESS STATEMENT

- No known stress positive or stress carrier Duroc, Hampshire, Landrace or Yorkshire animals will be allowed to be exhibited or sold at any NSR-sponsored event.
- Such warranty is, however, solely that of the seller and not that of the American Landrace Association (ALA), American Yorkshire Club (AYC), Hampshire Swine Registry (HSR) or the United Duroc Swine Registry (UDSR).
- The ALA, AYC, HSR and UDSR assume no responsibility or liability in connection with such warranty by the seller.
- If any NSR purebred animal sold at this conference is found to be a carrier of the stress gene, the purchaser has the right to receive full refund of the purchase price from the seller.
- DNA testing for the stress gene must be done within 60 days of the sale date, and all costs associated with testing for stress must be paid by the purchaser. The seller has the right to review the test results and the right to re-test the animal at a laboratory of his/her choice.
- Cost associated with re-test by the seller is at the seller's expense. There will be no refund of NSR commission from stress-carrier animals.

BREEDING ANIMAL SALE

- A minimum of 60% of the number of each sex (boars and gilts) shown will be selected for the sale. These animals will be selected with no set number selling from any single class. Animals not selected for the sale can be consigned to the sale for an additional fee of \$20 per head; this must be done by the conclusion of the show. If the animal sells, the fee will be applied toward the sale commission. If the animal does not sell, the fee is forfeited.
- All animals selected and cataloged for the sale MUST go through the auction. Sale commission will be 15% for all animals. If an animal that is selected and cataloged for sale does not go through the sale ring, the exhibitor will be banned from exhibiting at NSR events for one year and will be charged 15% of the average selling price of their respective breed sale. This amount must be paid before reinstatement will be allowed. The exception to this rule will be if an animal has become injured or ill and is inspected by an NSR staff member prior to the sale.
- The NSR acts only as the agent between buyer and seller. If proper payment is made by the buyer in a timely manner the NSR will make settlement with the seller in approximately 30 days after the sale.

Southwest Type Conf. RULES & REGULATIONS*

March 1-4, 2017
Entry deadline: Feb. 1, 2017

*Rules are subject to change

For up-to-date rules & regulations and to enter online visit nationalswine.com

PUREBRED BREED ELIGIBILITY REQUIREMENTS

- By entering any purebred hog in the SWTC, the owner warrants that the hog meets specific breed requirements.
- Such warranty, however, is solely that of the seller and not that of the HSR, ALA, AYC and UDSR, and the HSR, ALA, AYC and UDSR assumes no responsibility or liability in connection with such warranty by the seller.
- For information on NSR breed eligibility requirements, please visit nationalswine.com/pedigree_services/breed_eligibility.php.
- If any Hampshire, Landrace or Yorkshire animal sold at the SWTC is found to be a carrier of the color gene after being tested through the procedures approved by the HSR, ALA and AYC, the seller agrees that he/she will promptly refund the full purchase price to the buyer. There will be no refund of NSR commission from animals that are carriers of the color gene.

HEALTH REGULATIONS

1. **EACH ANIMAL ENTERING THE BELL COUNTY FAIRGROUNDS MUST BE LISTED ON AN OFFICIAL INTERSTATE HEALTH CERTIFICATE ISSUED BY A LICENSED, ACCREDITED VETERINARIAN. THIS INCLUDES DELIVERIES AND PARKING LOT PURCHASES.**
 - a. **Health certificates must be issued on or after Feb. 3, 2017.**
 - b. All animals and health certificates will be inspected by officials prior to unloading. Inspectors will ask to see the original copy of the health certificate upon arrival.
 - c. Multiple hogs may be listed on one original, provided they are transported and arriving on the same shipment.
2. **CVI REQUIRED STATEMENTS, IDENTIFICATION & MISCELLANEOUS ITEMS**
 - a. Name and address of consignor, consigned to:
Southwest Type Conference, 301 W. Loop, Belton, TX 76513.
 - b. Individual identification of animal (ear notch and ear tag). **ALL** animals (purebreds and crossbreds) entering the Bell County Fairgrounds **MUST** be identified by a federally-recognized, permanently-numbered eartag. For more information on federally-approved eartags, please visit nationalswine.com.
 - c. Health status of animal, including dates of required tests and vaccinations, **MUST** be listed.
 - d. A Premises ID number **MUST** be included on your health certificate.
 - e. Your veterinarian's cell phone number **MUST** be included on your health certificate.
 - f. **ALL HEALTH CERTIFICATES MUST CARRY THE FOLLOWING STATEMENTS:**
Farm or origin of the swine:
 - i. has not had any clinical signs or diagnosis of Senecavirus A (Seneca Valley Virus) in the last 30 days
 - ii. has not had pseudorabies or swine dysentery in the last 12 months and uses no PRV vaccine
 - iii. has not had any clinical signs or diagnosis of TGE or PEDv in the last 60 days
 - iv. feeds no garbage and is not under quarantine for any disease condition
 - v. has not been diagnosed with Vesicular Stomatitis within 10 miles of the farm of origin within the last 30 days
3. **REQUIRED TESTS AND VACCINATIONS:**
 - a. **ALL hogs (breeding and market) MUST be tested for pseudorabies (PRV) and brucellosis on or after Feb. 3, 2017, UNLESS animals come from a PRV-qualified and brucellosis-validated herd.**
 - i. If the herd of origin is PRV-qualified and brucellosis-validated, individual testing of each animal is not required. In this case, the PRV qualification and brucellosis validation numbers must appear on the health certificate and complete quarterly herd test date (month, day and year) must be stated on health certificate.
 - ii. Swine tested for PRV and brucellosis must show the date blood sample was drawn (month, day and year).
 - b. Leptospirosis vaccination is required on breeding swine within 30 days prior to entry with vaccine containing the following strains: Canicola, Hardjo, Icterohaemorrhagiae, Grippytyphosa and Pomona. Vaccination date must appear on the health certificate.
 - c. It is strongly recommended that all breeding animals be vaccinated against influenza.
 - Certificates are not required to be state stamped.
 - In some instances, these rules are in addition to Texas regulations, but are necessary to sell animals into other states to meet interstate transport and entry requirements for swine.
 - For the most up-to-date health regulations for the SWTC, be sure to visit nationalswine.com.

Southwest Type Conf. 2017 ENTRY FORM

Fill out **BOTH** sides of entry form

Entry deadline: Feb. 1, 2017

Each breeder may enter a **MAXIMUM** of **4 PUREBRED OPEN GILTS** and **4 PUREBRED BOARS** from each breed and **2 CROSSBRED BOARS**.

Purebred boars and gilts must be farrowed on or after July 1, 2016.

Ear notches, farrowing dates and entry fees for each animal must accompany the entry blank.

"By my entering this conference, I agree to comply with all rules and regulations of the conference."

Choose meat that's pink with a small amount of marbling and white (not yellow) fat.

Choose wrapped packages without any tears, holes or leaks. There should be little or no liquid in the bottom of the tray.

The National Pork Board recommends cooking pork chops, roasts and tenderloin to an internal temperature between 145°F (medium rare) and 160°F (medium), followed by a 3-minute rest.

Craig Spray

Hometown: Lafayette, Indiana

Family: Wife, Emily; children, Makayla, 9, Keegan, 7, and Landrey, 5

Favorite show to attend: National Junior Summer Spectacular (NJSS) in Louisville, Kentucky

Best place you've ever eaten while at a show: We enjoy eating at Buckhead Mountain Grill when we go to Louisville. Trostel's Greenbriar Restaurant in Johnston, Iowa, has the best prime rib you've ever tasted!

Funniest/craziest/strangest thing that's ever happened to you at a show: Getting the front end of my truck smashed and partially torn away as we were unloading at Louisville three years ago.

What is the most valuable lesson you hope your kids learn by showing livestock?: We hope to use the NJSA show platform to help our kids build character that will stay with them for a lifetime. Learning the value of competition, building relationships and having a strong work ethic are at the top of the list we hope they'll take away from these experiences.

What do you do to prepare at home before you head to a show?: We try to walk every day. We work on skin and hair each day, as well. I always tell my kids that showmanship is often won at home in the barn during those early mornings before school or late nights after the sun goes down in the summer. The harder you work, the more success you're going to have. I believe it's important to drive your pigs like they're going to be shown, not just aimlessly walking them a few minutes each day.

What do you enjoy the most about watching your kids show?: Of course I enjoy when they succeed. But, watching them improve their show skills and grow in knowledge and confidence is the most rewarding part. Like any competition, the more you practice the better you'll be. I tell my kids practice doesn't make perfect – perfect practice makes perfect!

Is there a piece of advice you always give your kids before they go in the ring?: Anticipate what the judge wants to see and where he's going to be. Keep your eye on the judge, and keep your pig's head up, but not too high. Have fun!

What advice do you have for other show dads?: It gets better, trust me! When your children start showing at 3-4 years old, you sometimes wonder if they'll ever be able to compete with the older kids. Don't get frustrated when they can't get their pig out of the corner. (Easier said than done, I know) Take lots of pictures and slow down to enjoy every moment together as a family. Don't let the pig show get in the way of building stronger relationships with your kids and spouse. Enjoy the hotel swimming pool and stuffed animals that make it into the truck before you pull out of the driveway. It'll all be gone way too soon.

Transfer the

PEDIGREE!

A pedigree is more than a piece of paper – it's your word. It's a bond that says your breeding stock is a superior product, backed by quality genetics and predictable performance. So, after a sale, ensure that you continue that bond with your customers. Transfer your pedigrees in a timely manner. Not only does it record a history of official ownership, but it guarantees customer satisfaction and just might set the tone for repeat business. For any questions, please call NSR at 765.463.3594 or visit nationalswine.com.
